*Yoho Batlamers !!!* This month, the best movie reviewed is without any problems "Kickboxer". It's not the best because the main hero is a Belgian boy but the movie is really attractive (like all Tkom's), it's bad, savage, wild, violent (just like we are in Transcom).

In long beach, while the National Final of Kickboxing, Kurt Sloane (J.C. Van Damme) looks his brother Eric winning a crushing victory and becoming world champion. After this victory (limited at the west), Eric decides to go in Thailand, land of Kickboxing, to challenge against the local champion, Tong-Po. This movie is enough to change you into a Kickboxer. I remember when the movie was over, I made a jump from my place to the first place (+/- 10 ranks) and fought against a lot of Italians. Of course, I won !!!

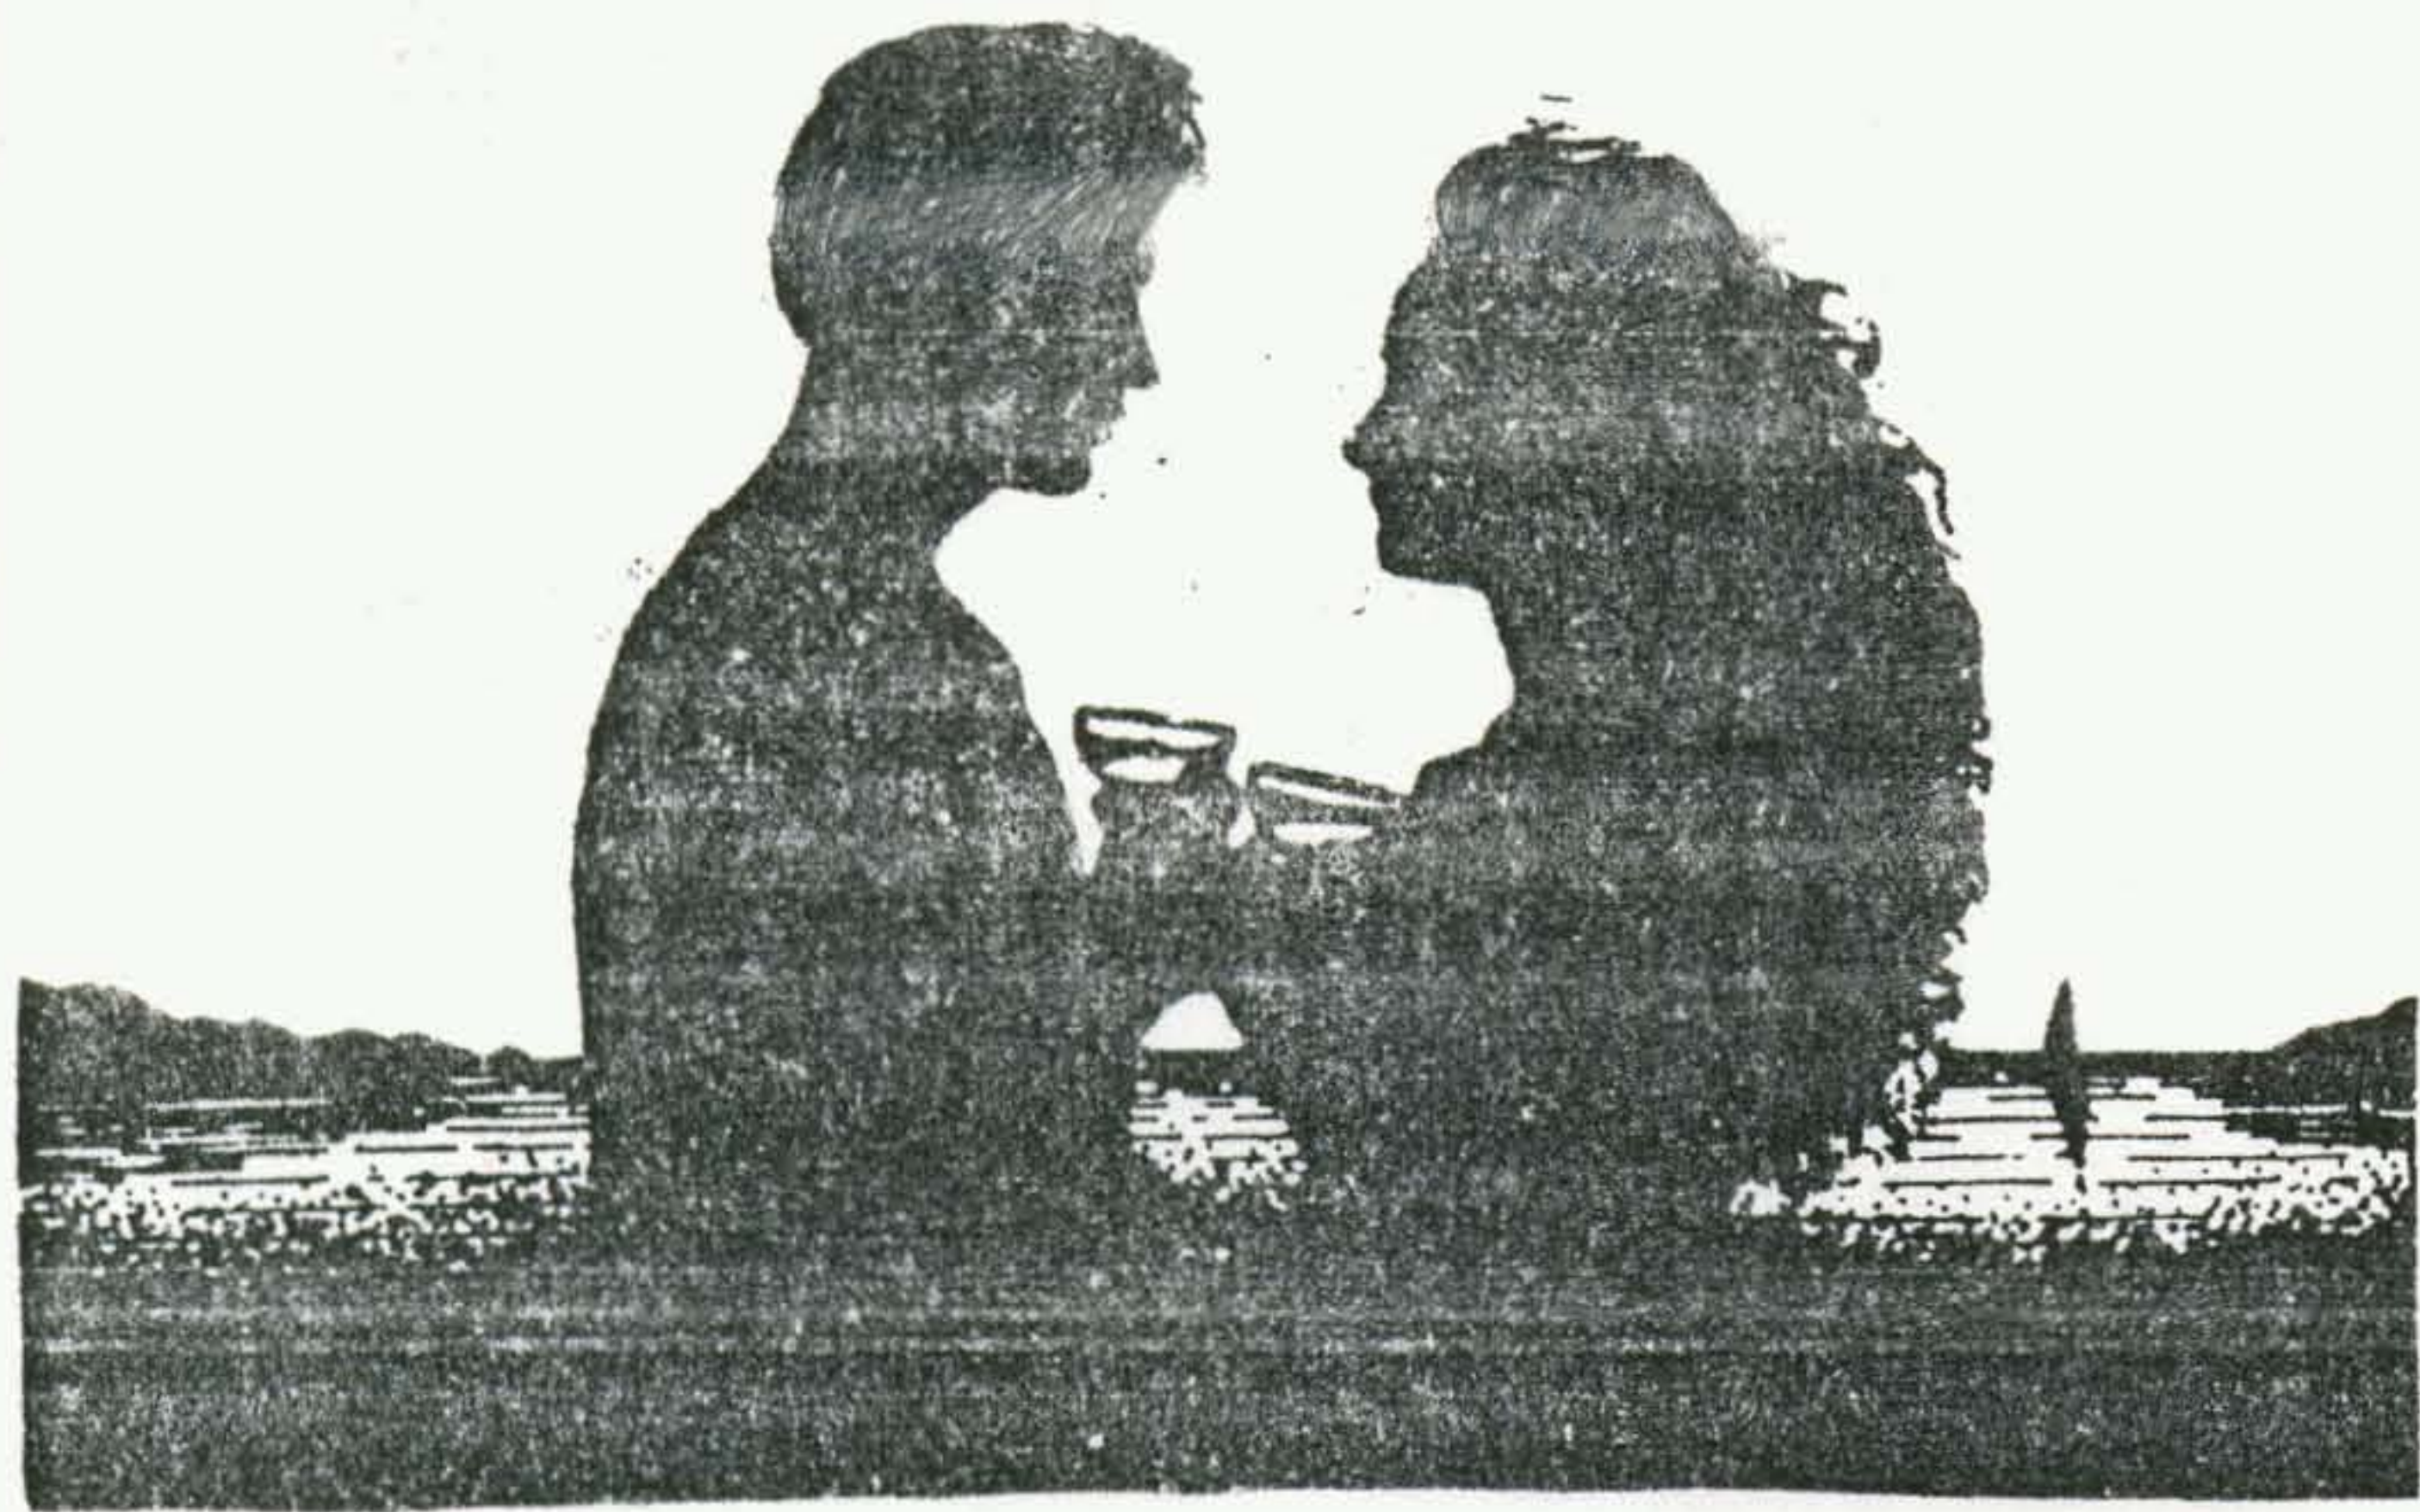

Well, if you want to fell the same effect then watch the movie and try to do the same with your friends, girlfriends, neighbours... "Licence to kill", one of the best bond movies, is also a cool movie to watch (alone or with a pretty girl!). Here's the story: James is going to the marriage of his friend Felix Leiter, chief of the Floride Narcotic Office. They are called, before the ceremony, to stop a dangerous drug dealer. But, this one kill Leiter's futur wife and give Leiter to a shark. Then, 007 decides, against the orders of his superiors, to avenge them... Just watch the film to know the rest. Don't miss it!

Well... I'm going to stop here 'coz I have lots of new movies to watch... So, if you want to swap videos with me, just send me your tapes (movies included of course) to my personal address: Shadow/TKOM - 13 rue Gochet - 5090 LAMINES - BELGIUM.

# THE YUGOSLAVIAN SCENE

by Luxury Boy

I want to say that you will not surprise when you'll read this smash text, 'coz situation (scene) in Yugoslavia is very bad. You already know, guz that we haven't computer law in our country and all who are in possible way to become the pirat become the pirat. We haven't real crackers and pirates, 'coz they pretending to be some thing. They only know to make basic shits and freez originals and of course, then they speak about how they are able to crack something.

They are lamers, lamers and lamers. Only you can thrust are : VICTORY, ASTOR, THE HEXADECIMAL SWAPPERS, INTERLOPERS and of course to us (THE DEERS).

We have two legal magazines : "My Micro" and "The World of Computers". they are full with advertisements and they comercial his own product (cracked games). It's Lame ! They prepared your cracks who are imported from Holland, England, West Germany, Sweden... Put his intro on your cracks and they can say (after all), how they are very, very able to crack ! Lame, lame...

Ha,ha, the sugar at the end : they prepared your intros & demos and spread wich prepared names, sprites, rasters, musics, scrollers and all, all, all... If you (all groups who want swap with guz in Yugoslavia and get his cracks) want seal your products be sure that you find real one ! 'Coz he will (maybe) spread prepared version of your crack.

Ok, that was little story from LXB/THE DEERS. If you want contact me, sent fast to : LXB/THE DEERS - Moslavochka 61 - 41315 NOVOSELEC - YUGOSLAVIA. My phone : 45/85178. Be sure that we are real one from YU!

Little greetz to TCOM, COOLEX (Entrail), Radix/HTL, and to allCCCP spreaders : Hobbit, Lenin andThe Vision.

Big Zdravo !

# YUGOSLAVIAN SCENE

by Steel/ATOMIC GROUP !

You probably know many things about Yugoslavia but you've probably been told that we don't have any new programs, that we don't know to crack not to mention coding ! But it isn't so... An average Yugoslav owner of C64 has got : a computer, tape recorder and 2 joysticks. Most of them work only with tapes, but many of them aren't really professional. They use a device wich enables them to connect even 10 tape recorders at the same time. The quality of the recording isn't good and they are many complains about it. Better pirates save programs directly from the memory and the quality is much better. Our pirates get programs from their foreign friends, and there are only few of them that crack programs by themselves. When the programs arrive, it's up to the pirates and the post office when will the customers get the tape or diskette.

The most popular foreign group is Transcom ! Piracy isn't prohibited in Yugoslavia so there is a lot of pirates here. The best pirates are : 1- VICTORY, 2- YUCS, 3- LCM, 4- ASTOR, 5- Others.

You'll be surprised, but there are good coders in Yugoslavia. Some of them are well known, but many do it just for fun. Best coders are :

1- VICTORY, 2- THS, 3- DEERS, 4- ATOMIC!

You can drink as much as you what in Yugoslavia. It doesn't matter how old you are (Hik!). The best drunkards : DO.S.C. & HAZARD are (almost) equal, Joe Williams & Steel also (we adore beer).

That was the introduction and now go some news. During the 1989, several pirate reviews have been started, but they didn't last long. However, ATOMIC GROUP is preparing a review called "Funny Bytes". It will be published in english and the first number will be published in january '90 (contact us, call : 38/74.24079). Joe Williams has also planed something big but... The guys from VICTORY GROUP have made a demo-disk wich was presented (appeared) at the Venlo-meeting. They are still the best !!! A new group has shown up. It's the DEERS founded by the Luxury Boy. The guys are doing just great and we expect a demo, utility disk or something else !

Several copy-parties and meetings took place lately. ASTOR organized the first copy-party at the beginning of the summer. After that VICTORY organized a meeting wich they used for the presentation of their demo-disk. Also, 2 copy-parties for Amiga took place and group called ROXETTE is preparing a new copy-party. The pirates also meet at different technology exhibitions

That's all for this number ! In the next one you will be able to read more news from one of the craziest piratical scenes in the world (if you are interestred in something, do contact us)

A calling from the best perestoyka country, HUNGARY'S first faces are here ! Let me, tell you a story about our best friends in town : FBI CREW !

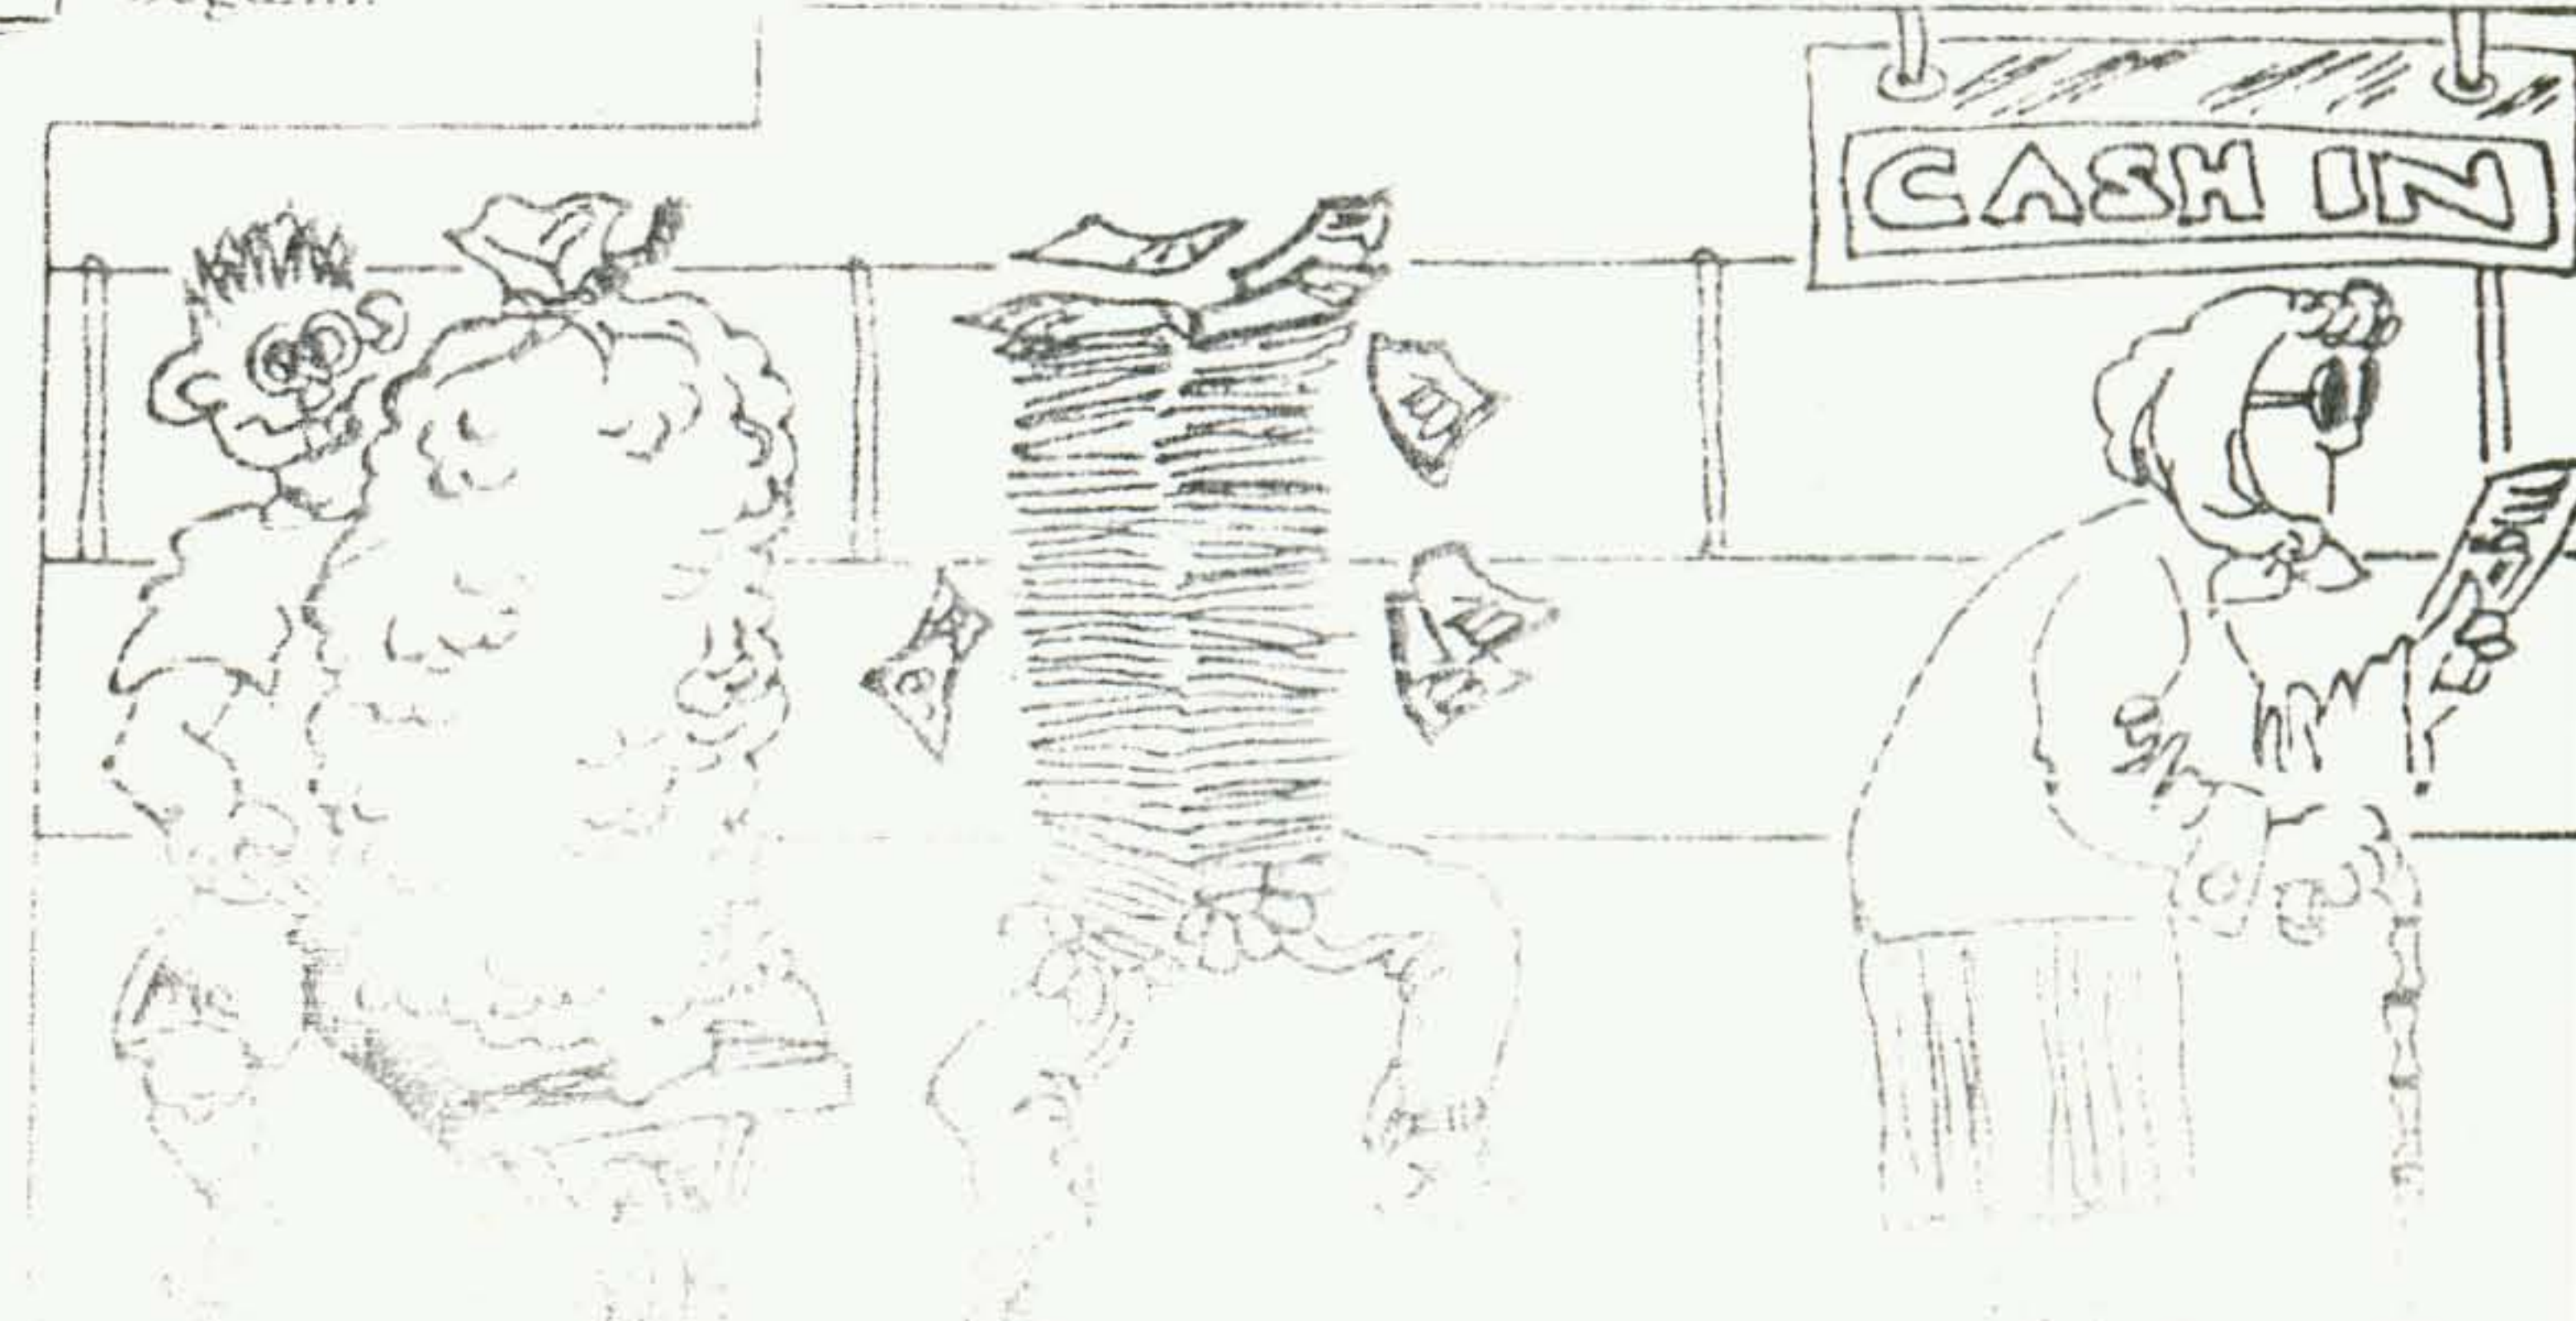

Well, it happened long ago with two membs of FBI-Crew, Mr Wax and Off decided to try a new cheat-mode in international calls. It was a boring afternoon, people tumbling on the streets searching for shadow in the heavy sunlight - Mr Wax reached Off's place. After having some chill drinks given by the dear old Granny of Off, they both went inside Off's room. Mr Wax took his superb register and the new mode of dial began...

After 4 hours of chat with almost all the coolest contacts of them, Mr Wax left. And time passed...

A month later, Mr Wax phoned to Off and he nearly dropped the receiver because a horrible voice came thru ! AAARGH ! Off had lost his self control and kept on shouting : "Fuck the idiot who offered that mode...!". Well, he's received the phone bill... It was a monthly salary of an average Hungarian to be paid ! The total amount was cut in three parts : one to Mr Wax and Off and surprise ! The blessed Granny paid the 3rd part (thanya forever, Granny !)

So, that happened to my friends - now they're searching for letters to their calls from...

# PIRATE, Who are you really ?

Here it is, the ultimate public opinion poll wich has to clear all your questions up. I've lost most answer sheets, and there are just 20 sheets remaining, but it's enough however. Some questions (as favorite movie, demo...) are not written because their answer was too sketchy (??? : means no answer).

# THE AMERICAN SCENE

by The Vision

What's news in America ? Personally, I think our trading scene on the C64 is pretty discouraging & worthless.

The C64 seems to have peeked as far as innovative programs, as well all have noved on to Amigas. Another problem with the C64 swapping scene is the continued absence of dominant cracking and importing groups. Back in the "good old days" of the ESI-UCF oligarchy, fewers were pitched, but a shitload of cracking was done - quality cracking. Now american groups get, like Andy Warol said, their 15 minutes in the spotlight with each release, and then fade to bleck. Everyone is an "???". Yes, right. And I'm a commie ! Bullshit. This trend has made me, once a very active sysop/swapper/importer/phreaker/gossiper into a laidback sysop who only cares about making sure there is room to upload (but I care about Amiga swapping !) to my BBS and that the wares on the BBS are new. I scratch ALL my new C64 prgs, with only rare exceptions.

Like I've said before, for us americans, swapping is independant from everything else. Unlike Europeans, we almost never have copy-parties (or other kinds of parties), and you never meet the guy at the other end of the phone. Consequently, you don't feel as much of an obligation to keep plugging away, 'coz not as many friends call up and say "long time, no sec".

If you do want a contact in America, contact me ! For C64, I swap by modem only. The BBS is 619.541.1052 at 300/1200/2400 (300 is for lane Euro's only). Better yet, for mail correspondance + Amiga swapping, send to : JAY - Po Box 177005 - San Diego, CA 92117 - USA.

Yes, we cheated. And if you want, we can even create some vote-sheets and send back them to you.
