TKJ OF WHO YOU KNOW

Кои пож, TCOM in an excess of kindness brings another issue of the обзор собитни за нелнжo ★CCCP★!

We promised it, we did it, no one can hope to escape from the Tcom's hands of fate. We have answer to Genesis in "our" language. Do you understand it? We now reached the 700 copies, so you see your reputation falling down, therefore you see what you can do : create some more lies in Sex'n'Crime, you're using to...

I'm now trading VHS, but only concerts, I begin with 11, like DEPECHE MODE (101 the concert, 101 the movie "route 66", the world we live in and live in Hamburg), PUBLIC ENEMY (Fight the power "live"), and soon In fear of the black planet (But I have already the preview if you want) and the rest like Genesis (stupid name), U2 the unforgettable fire, simple... Some people deserve a greeting, it means the coolest one, the one I'm not swapping via a PLK, and the one I can trust in, here they are :

X-RAY (Hi Torsten, why do ya need a co-op whith those big-heads? Enjoy Rodenbach, you can feel it from far...),

COSMOS (Yo men, Alex I will so see you in YU, great! Sander, remember your promise? Do it, it's your destiny),

DEPREDAATORS (at least a new group, but Enjoy (the silence), are you a real warrior, I don't think so),

ACTION (Hi Thomas, I've got thousands of problems with my modem you know, but I hope it will be cleared soon to show the world what our trio is able to do. Also hi to my old friends, Rai and Depeche Markus),

DEMONIX (Yo john, what about fixing our games before releasing them? But thanx for the codes & conferences. You've loved ★CCCP★ #7, so what do you think about this one, the unholy laceration?),

FANTASY (Hi Sean, how do you live with the cows? You fuck them I know it man!),

DOMINATORS (Hey Thomas, send more if you can, if not I don't care indeed...),

F4CG (Yo Pet', we're in a bit of trouble for Venlo, isn't it? Raynier, remplis ton frigo!),

and my reliable pals : Paul/ACID (shakin', shakin'), Jay/THE VISION (Jack Daniel? Why not!), Rada (day less 70, thanx for lodging myself then, party time is coming), Lela (I'll change your world), Bjanka (All I wanna do is see you), Violeta (What about the drawings eh? Doesn't matter, see you soon), Teca, Milan, Vanja (pocket), Yasser (At least a new place man, no luck YO), all people propping up the Galija and the Donaldson bar and all the real warriors from Crvenka, the whole TF3A knowing better than anyone else what by the fuck is the real fun!

Hey, I've just heard about someone producing ★CCCP★ on disk, what a joke! It must be a lame American who have nothing else to spread but sure he'll got real troubles when we learn who he is!

I would like to throw a small challenge to Antichrist/GP :
- You told me that nobody will come to our party, right? Ok, let's bet : if there's less than 200 hundred people, I send you 100 DM, if not then you send me 100DM, ok? Of course you're not, no guts, and no money...

There's a new party coming, just the warriors are welcome, just the one who can drink as a fish, just the one indeed who has guts, but is it not the definition of TKOM?

Transcom Party, August 1990, Subotica/YUGOSLAVIA

YOUR IDOL IS BACK AGAIN ! Chouans/TRANSCOM

After a few months of "slow-work", TKOM dictates its laws again, in spite defective (Yo LEGEND, CONTEX, CENSOR and others) who because they receive a little muncher of originals think they can compete with the best (TKOM & TKOM who else?).

Another on the contrary have preferred to make more particular argument to ensure the cooperation of Sex'n'Shit, that why appear in broad daylight the profligate life of Antichrist/G*P (You thanx us never big enough to authorize The Goblin to stay in you group). I know, we (TKOM) are too nice but my pity gets the better of your pretension and don't forget that a french (The Goblin) is in possession of your existence and that without his help you 'd be a ...

Mega greetings to my best friends : MAO/F4CG, Tricket/DOM, Big-Ben/COSMOS, Barry/DERBYSHIRE and normal to Rocky/ILS, Aaron/FLT, Ziggy/LEGEND.

TRANSCOM HOLYDAYS PARTY * SUBOTICA / YUGOSLAVIA
Saturday 4th - AUGUST '90 - Monday 13th

You right, bloody hell ! Why by the fuck we're a pain in the arse to make a party outta there ? Because TKOM like to challenge the impossible, never a decent group thought to go down there, but however, when I've got this idea and speak about it around me, everybody said me he will come, so blast you bunch of cretins !

What will be so awesome at this Yugoslavian Party ?

- Whole Transcom will be there (but is it enough ?).
- One week of carousing and wenching (Hard luck for the gays, isn't it Gotcha ?).
- Standart of living is twice as cheaper than in EEC.
- Party will take place in a big house (Have you seen Dallas saga ?) open-handed on a lake (Crystal lake ?).
- The best way is to take an interail-card, then you can travel free through Europe and run through the party in Norway, and any other one in august.
- Piracy isn't prohibited in Yugoslavia, no way to see cops.

That's the way to go there :

-Via Hungary : *take the train Budapest-Belgrad. Subotica is the first stop after the border (and then the ID control).*

- Via Belgrad : *there is a direct train Belgrad-Subotica regulary.*

Once there, take a taxi (it will cost you max. 2DM) and show the driver this adress :

CARA DUSANA 3 - SUBOTICA (Phone +38/24-21557)

You don't need any invitation, so you can spread this adress, right ?

SOCIAL FUNTION : CRACKERS !

Some days ago, I found my old game-compie, the Atari 2600 in an old 'n dusty corner, I decided to give it as a present to my little brother (Yo Martijn !), and when I watched at him I saw how much he was

enjoying playing those games myself, that typical feeling when you are 10/11 years old and just have bought (!) a new game will never come back and I regret that !..

But although it won't come back, it gives me the following opinion : we, crackers have a funtion, in the society ! We are the robin hood's of the 20th century !!! Just like roby-boy we steal from the rich (software firms) and give it asway to the poor (kids)... It is our duty to supply the kids with games, coz it gives them a chance to escape from reality. For example, when a boy has trouble on school and the others are joking on him all the time, he is able to turn on his computer and get rid of his agression or depression by killing aliens or whatever ! I even guess that this is the reason why we created our

"scene" we (not all) have built up our own society bcoz we are disapointed in the real one, but even in our society some dudes are bad threatend (lamers...), ok I guess I bored you enough but keep this article in your mind, some guys maybe will say : guys who want to play games must get an amiga, but not everybody has the money for that machine ! So let's keep the 64 alive forever... Amiga sux (it is a game compie for grown-ups !), well see you around your everlasting, twist...

[Ed. : Hey Sander, you've done a mistake, this kind of boring articles is good enough for Pirates or Outbreak, not for ★CCCP★.]

Twist/COSMOS

VENLO REPORT

I don't know what I can say about it, there's nothing to say. Let's just give a legend to those photos.

1) Who's that kid ? Solar/ex F4CG, he has seized the opportunity we were not looking at him to jump on this school horse, but the ★CCCP★ press service is always there !

2) What's that souk ? And why by the fuck are doing all those people in front of their computers instead of the bar ? No comments...

3) What a cool photo ! You can see the "Flavor Flav" of the April edition of Venlo, from left to right : Greystoke, Chouans, Glasnost and I, LKJ. Behind, the fuckin' lame dutch bikes.

4) Before the orgy ! We would like to show you what happened when Spitfire took off his pant and fucked OMG of Amok, but sure it isn't handsome to see (Particularly when the fat pig at the entrance see that, kicked out Spitfire and then in his turn fucked OMG!).

5) Here's the real party Men, the warriors' one. Why do I put this photo amid the venlo's one ? Easy, just look the difference of fun, and you'll understand why we make a party in Yugoslavia ! 1 ☞

DIET FUTURE !

Leonid MOLEVITCH, Gorby's favourite spy, signin' off.

I, Leonid MOLEVITCH, secret agent for the soviet supreme ; have been infiltrating the scene for already too long. Here, exclusively for ★CCCP★, I'm reporting most of my observations.

☞ A special soviet commando almost kidnapped STRIDER/FLT. Rumours say that USSR would get him to work in a kolkhoz. Sure the big boy would do a 10 men's work. Strider's reaction to this was "Stakhanovism ?! Eeer... Bullshit, man !"

☞ COSMOS dudes are complaining about the way HOBBIT/TCOM is representing them in his drawings. You know, a farmer. Sure they would have cows, pigs and chickens in their group if they were farmers. Rumours say they do... (to be followed)

☞ The Fleet/X-RAY were questioned a few days ago by the KGB about Perestroika. Their answer was : "Perez who ?!... No sorry, we don't know him". Rumours say that no further investigation is planned.

☞ IKARI/TALENT should soon receive Yuri MARGARINE's lead medal of honour for not acting like capitalists and only cracking budget software. Rumours say bargains are the only thing they can put their hands on at the moment. Bad tongues say nobody ever buys originals anyway...

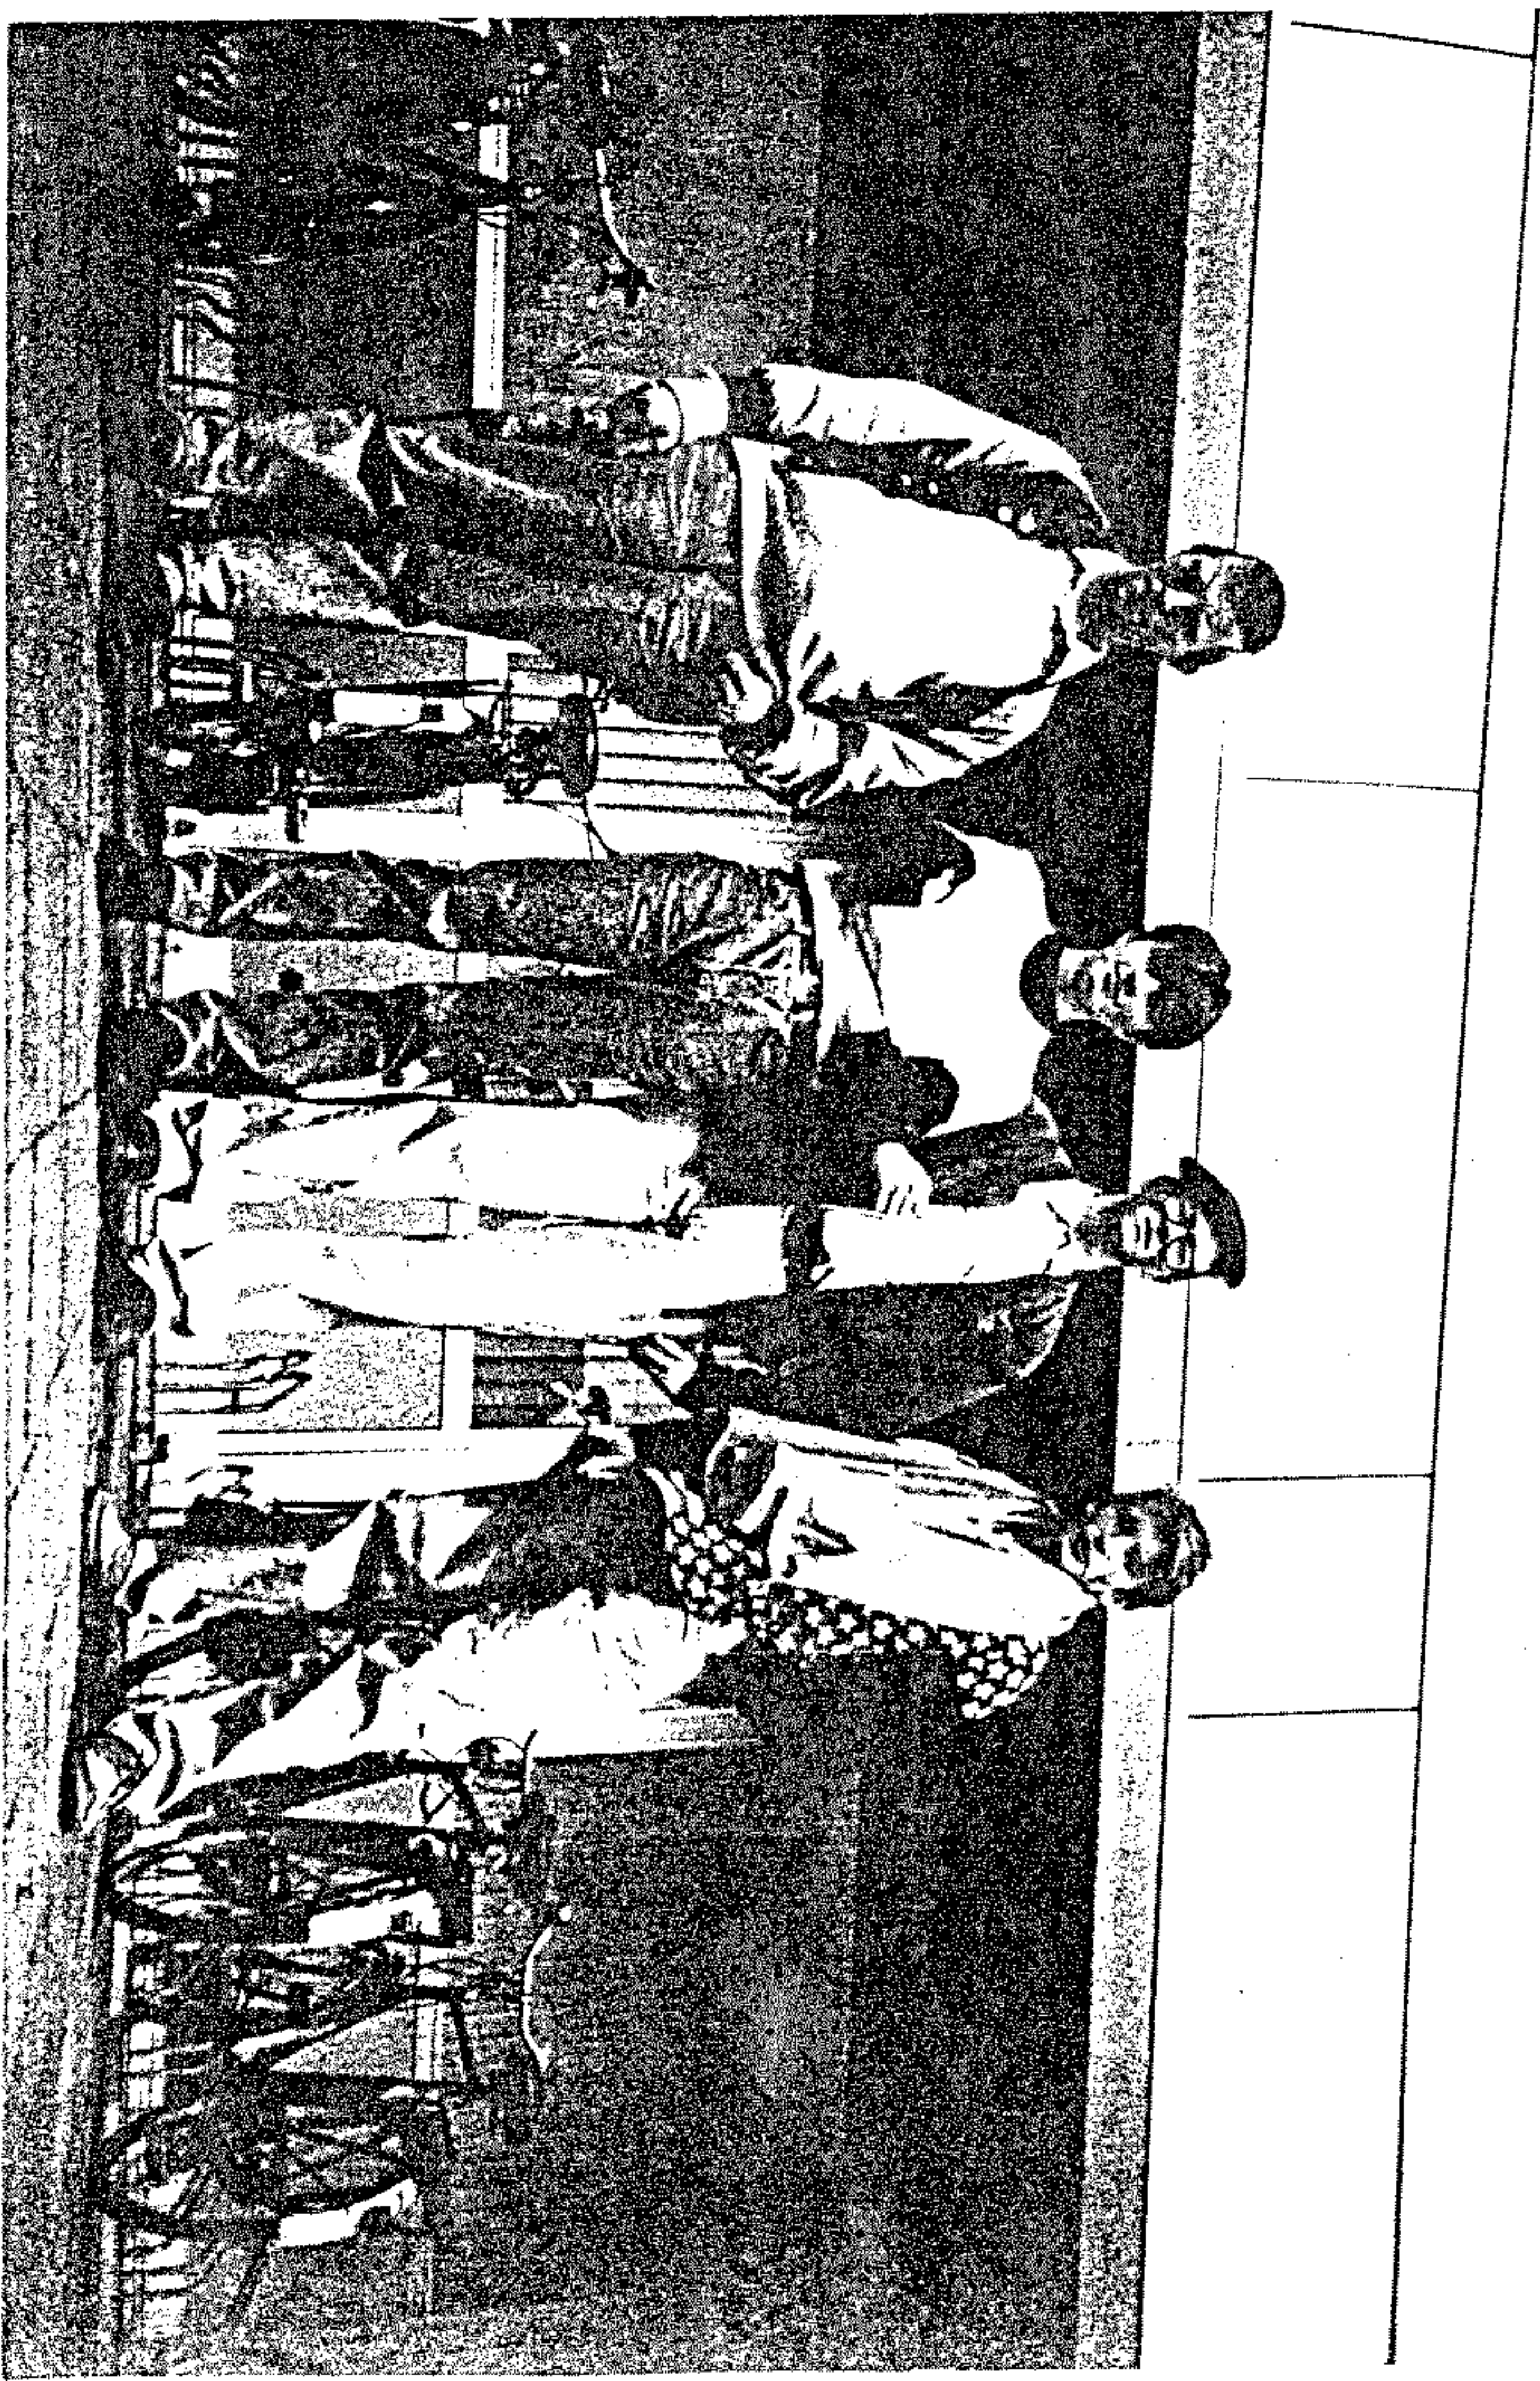

☞ A few belgian people wanted to rebuild COMMANDO FRONTIER. But nobody wants old dusty legends to reappear. Rumours say communism is also an old dusty legend... Dear Stalin, look what they've done to you ! Where are those good old purges from 1933 ?..

Let's conclude with a joke : "To kill the golden eggs chicken" is said in Russian : "To eat a female sturgeon". See you next time in ★CCCP★.

YUGOSLAVIA - TWILIGHT ZONE

Zdravo dudes & dudets ! Nowadays we have the elections in different parts of YU. And we have an attempt from the Albanians to steal Kosovo and join it to the GREAT Albania (They still love Stalin). You may have heard (Don't stop reading) 'bout Serbian dictature on Kosovo, haha. In years of 1948, there woz 93% of Serbians and Montenegrins and 3/4 % of Albanian (Kosovo woz Serbians land since slovens cum to the Balkan and the Albanians were in the condoms then). Nowadays, after 40 years of poor politic of our government, there are 90% of Albanians who are trying to take off Kosovo. There's also "Maplia" (Albanian) selling drugs and getting money to do dirty jobs against us (The end is cumming, over land). They fight the lovely Serbians (or any other no Albanian citizens, except Slovenians 'coz they give'em support to split YU. All Europe gets together in the EEC and they split...). They also throw stores on no albanian cars (except Slovenians and no Yugoslavians). Finally, they figured we poisoned children. You don't have to be an expert to see that there's no poison (And there can be no such a) that will act on Albanians only. And in the hospitals there were only albanian doctors (Serbian ones were thrown out). The

medical center is one the best in YU but for who ? 'for yesterday's butchers (It's truth). When the people from TV Belgrad cum to picture "poor" kidz, they were playing in front of the hospital (remember only Albanian kidz) and when they have seen TV people (With cameras - the video clip exists), they run into their beds, stupid ! There's also a scene where a kid woz shakin (poor poisoned). What a shame for us. I don't know what you've seen but it's true. Sorry for bothering so much but sum guys want this part of text (LKJ), are you satisfied ?

The real reason for reading this is 'coz you have to smart to read rest of mags and your younger brother took Playboy and went to the bathroom (Where is better light ?). Why I'm writing this ? 'coz I woz interrupted in preparing my exams (read : playing with my HP41CV+EXT. - Anyone have this ? Write me)when postman brings me ★CCCP★ 7 (Hvala Chris), I open it and I see sum texts from YU. Specially one from Steel.

Firstly, I must say that this guy (In higher places) is known as Milk instead of Steel. And I hope he'll come to the party in August, because I'll bring beer as much as you can drink (I can a lot) and for each beer he drinks, I'll drink two. I don't think he'll come when he heard

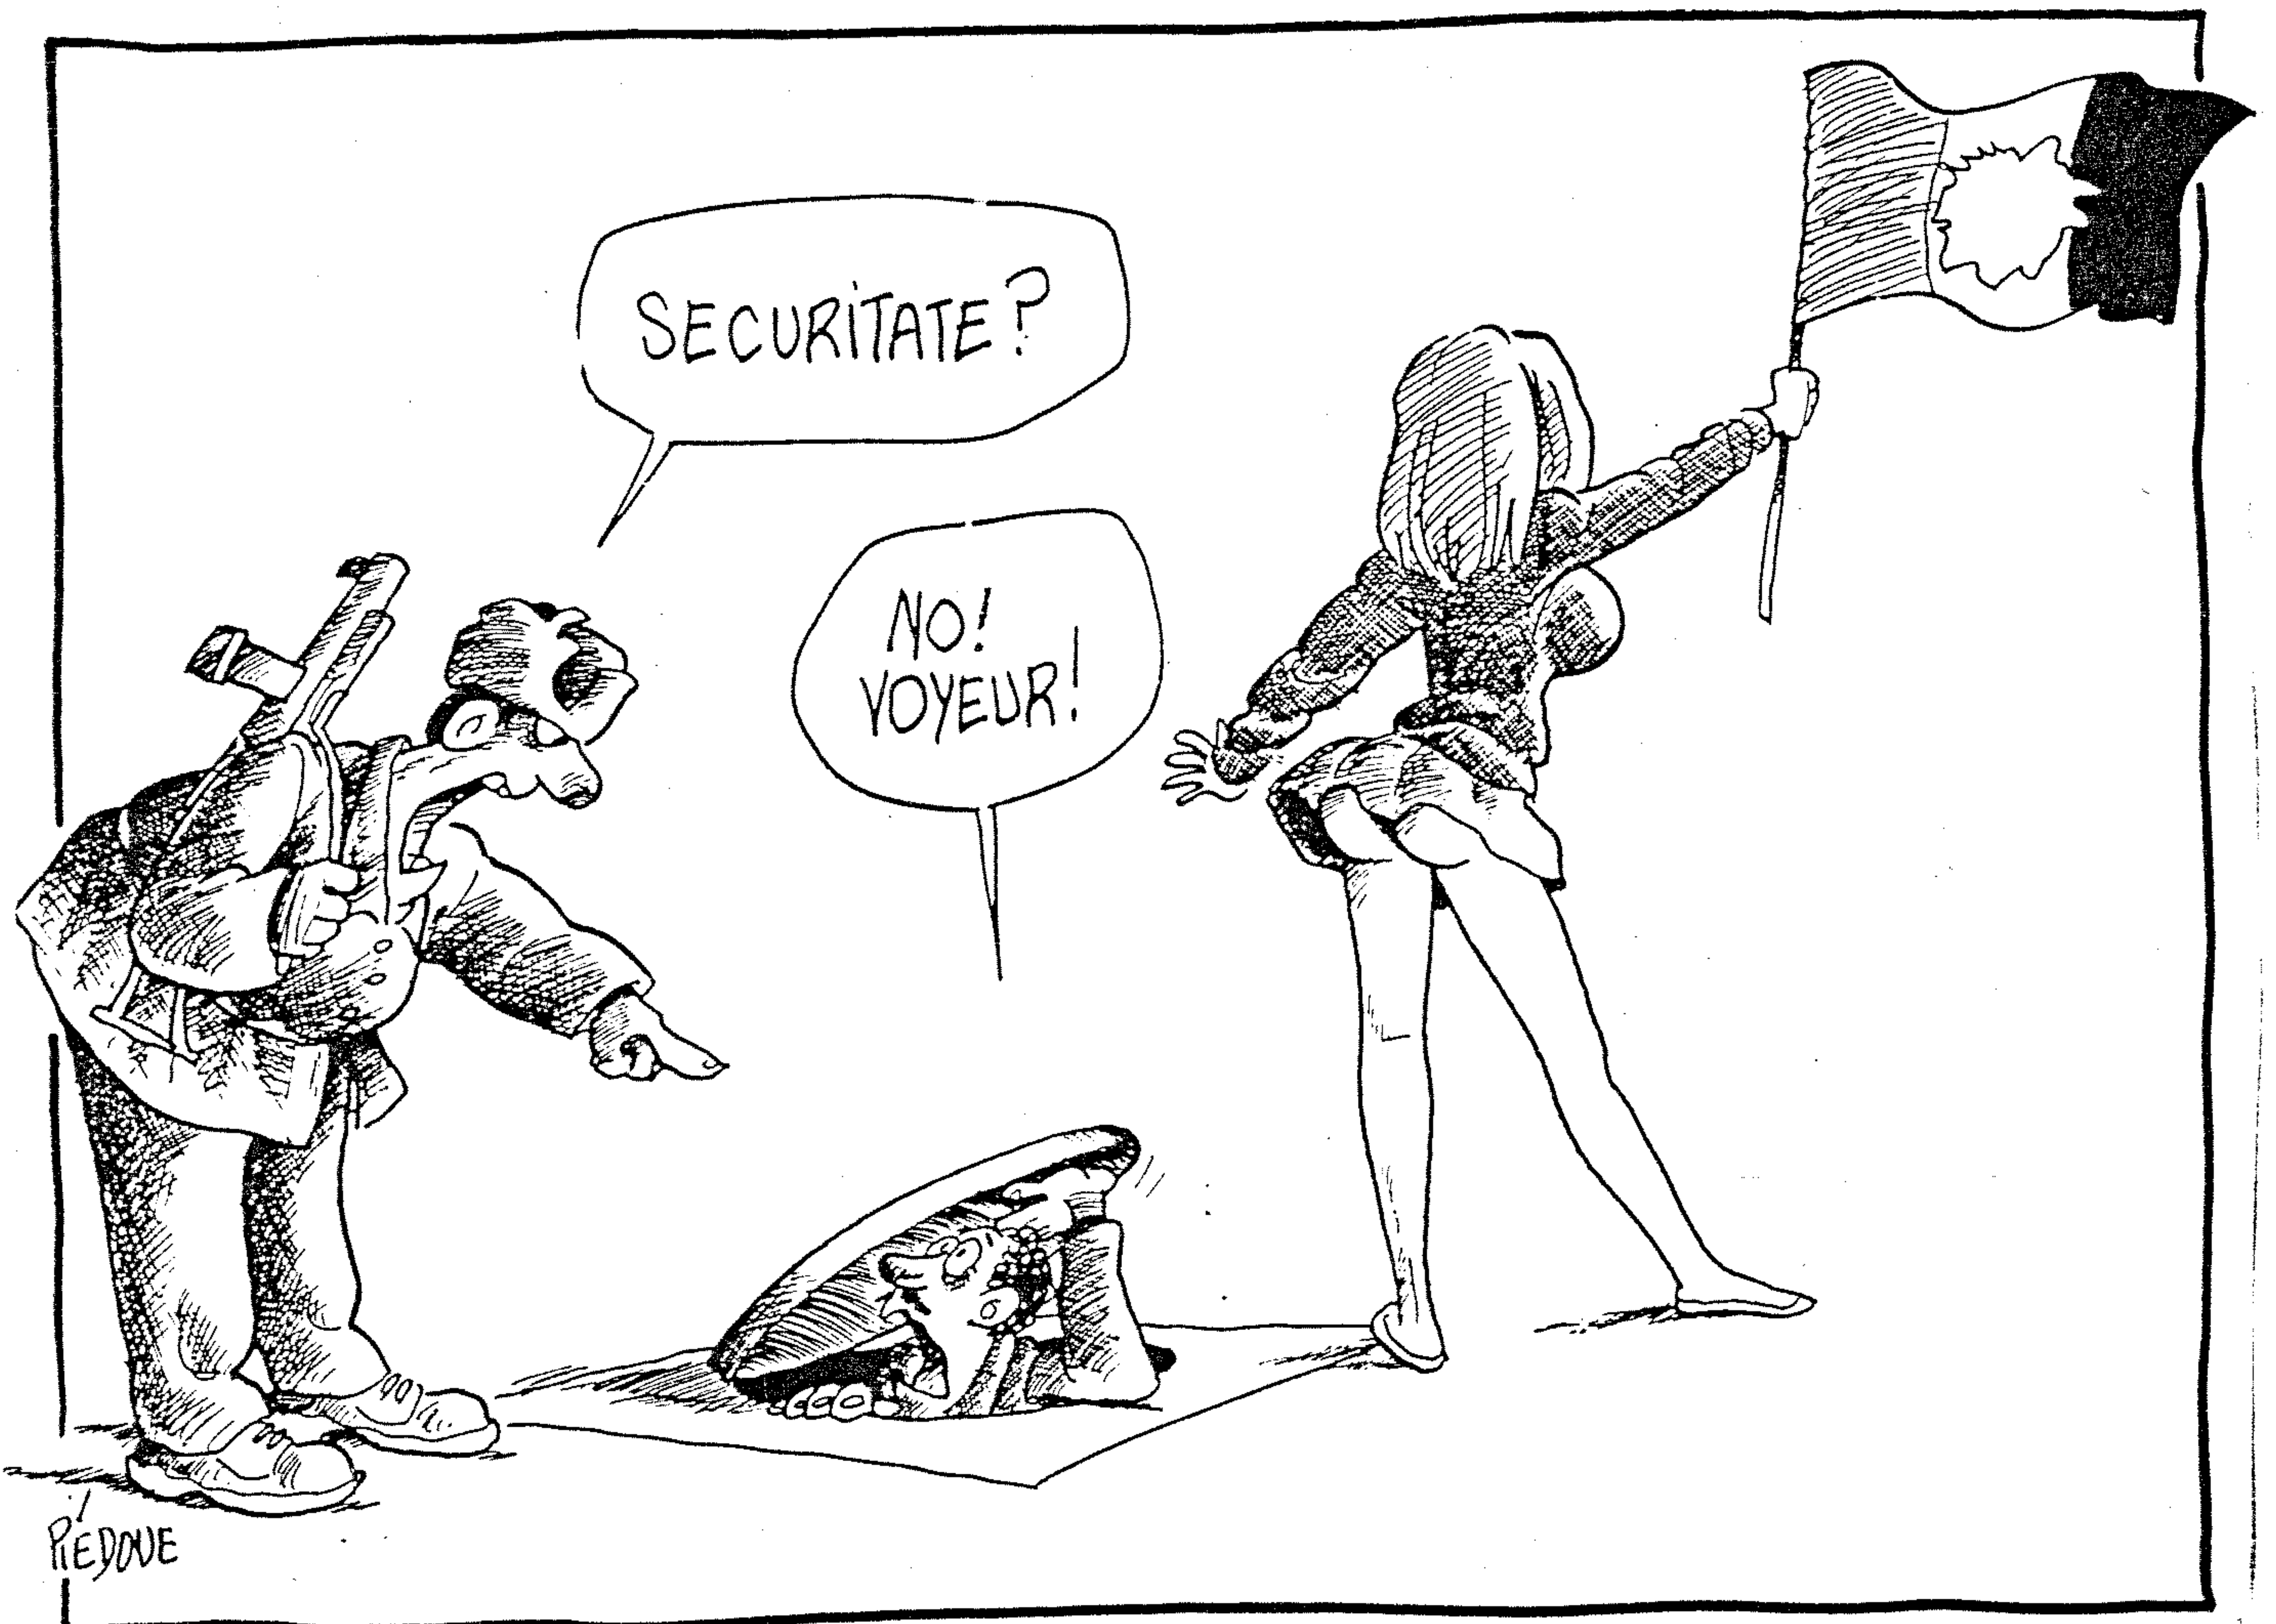

about this (Haha). About coding, ask TKOM who's the best 'coz the dudes from Victory/TKOM are only, so sorry Victory+THS (but you're in the army now, haha).

So, finally what about trading hot rock (LKJ know about Dino Dvomik), it's for free, but however send me a tape, don't miss this chance. Does anyone have LP of Buzzcocks ? Write me on Gray, Markovic Dejan, Save Kovacevica 3/1/1, 11000 Belgrad, Yugoslavia.

PS : HOB ! Man, my Amiga went for phone bill (1700 DM) but in August I'll have one, shit. What about army ?

DA' AMERICAN SCENE

At the current moment the American scene is running very slow. In cracking, there is no doubt about who is the number one. NEC releases all quality games first. In importing there is a battle going on between several groups such as : DEMONIX, INTERNATIONAL NETWORK OF CHAOS, EXODUS, FANTASY, EXCALIBUR... It's difficult to say who's the leading number one in importing. XDS is mostly importing from GENESIS PROJECT, CRAZY+LOTUS, HTL... DMX is concentrated on TRANSCOM, CENSOR, DYNAMIX, F4CG... INC imports from I+T, DOM, FLT... FAN gets everything from ACTION and EXC is running on games from LEGEND.

In the next issue, I will write some more information about the best boards.

ALL THOSE MAGAZINES...

I know a lot of articles have already spoken about it, but what did they change? Moreover, it wasn't with the Transcom's touch! Every group has now his magazine, then what's the art of producing a new one?

☞ **SEX'N'CRIME** might be called THE magazine, but now it's more a propaganda means, which has to lie sometime if Genesis ask'em (remember: "... Transcom asked GP for a co-op but GP refused..."). This mag gets really known as the spreader is the poor Antichrist (Why poor? How to call someone who has to use 5pfg stamps? I know what he will answer: I do it because it costs so much. But then, how do you dare call your contacts "friends" ??? Do you send with cheated stamps to your best friends? To your girlfriend? So stupid you look like, you are able to...). Besides, their votes looks strange, 'coz most of people who votes are lamers who want to have their adress in, and to prove it, I asked Oliver (OMG/AMOK) to send me one month & half ago the vote sheets and of course he didn't.

☞ **MAMBA** the magazine made by the cool Crazy. Are you not ok with me that Crazy is cool? Yes they are, how can you name a group who has given the adress of Spitfire to the police? But are you so stupid men? How can you still swap with a group who is able to make this shit? Fuck off Crazy, fuck off everyone who is still swapping with, and though Spitfire is hated by everyone, Crazy you suck! Your mag & yourself just think to the Americans, but what we care about'em? What are you indeed, pure shit...

☞ **SCENE PRESS** is the only one I can read to the end without feeling asleep. If the interview is so fuckin' boring, especially the last one with Powerplant, the rest is readable, but not enough humor into, like all the others mags except the next one I'm critizing.

☞ **LOVE'N'SEX** is the number one mag, I love to receive, just keep on this way, and drop all those stupid charts, news...

Ok, there's no other one worth to be mentioned, and by the way a reason to live (Depeche Mode yeah), I left you with this: All magazines could got the name "Blasphemous rumours" (DM again), the most important for you isn't to check the infos but to write them, but what by the hell the pirates care about it? The x left y and joined z informations don't interest somebody now, we are fed-up by those shits, prove you are more intelligent than Amok (I promise you it isn't difficult!) and then don't copy their idea.

"Everybody is looking for someone to follow, then follow the good one".

LKJ/TRANSCOM

VIOLATOR

HOBBIT
TRANSCOM

Let me take you on a trip around the new DM album. You won't have to move, just sit still and read this article. VIOLATOR is its name and it's, as always, recorded under the MUTE label. 9 titles are available on the disk. You could describe them as followed :

WORLD IN MY EYES is in the pure MODE tradition as is CLEAN. With a lot of sounds researches and the perfect gutural voice of D. GAHAN.

SWEETEST PERFECTION is a pure beauty sung by M. GORE, it can easily be compared to his solo COUNTERFEIT album (Martin's of course).

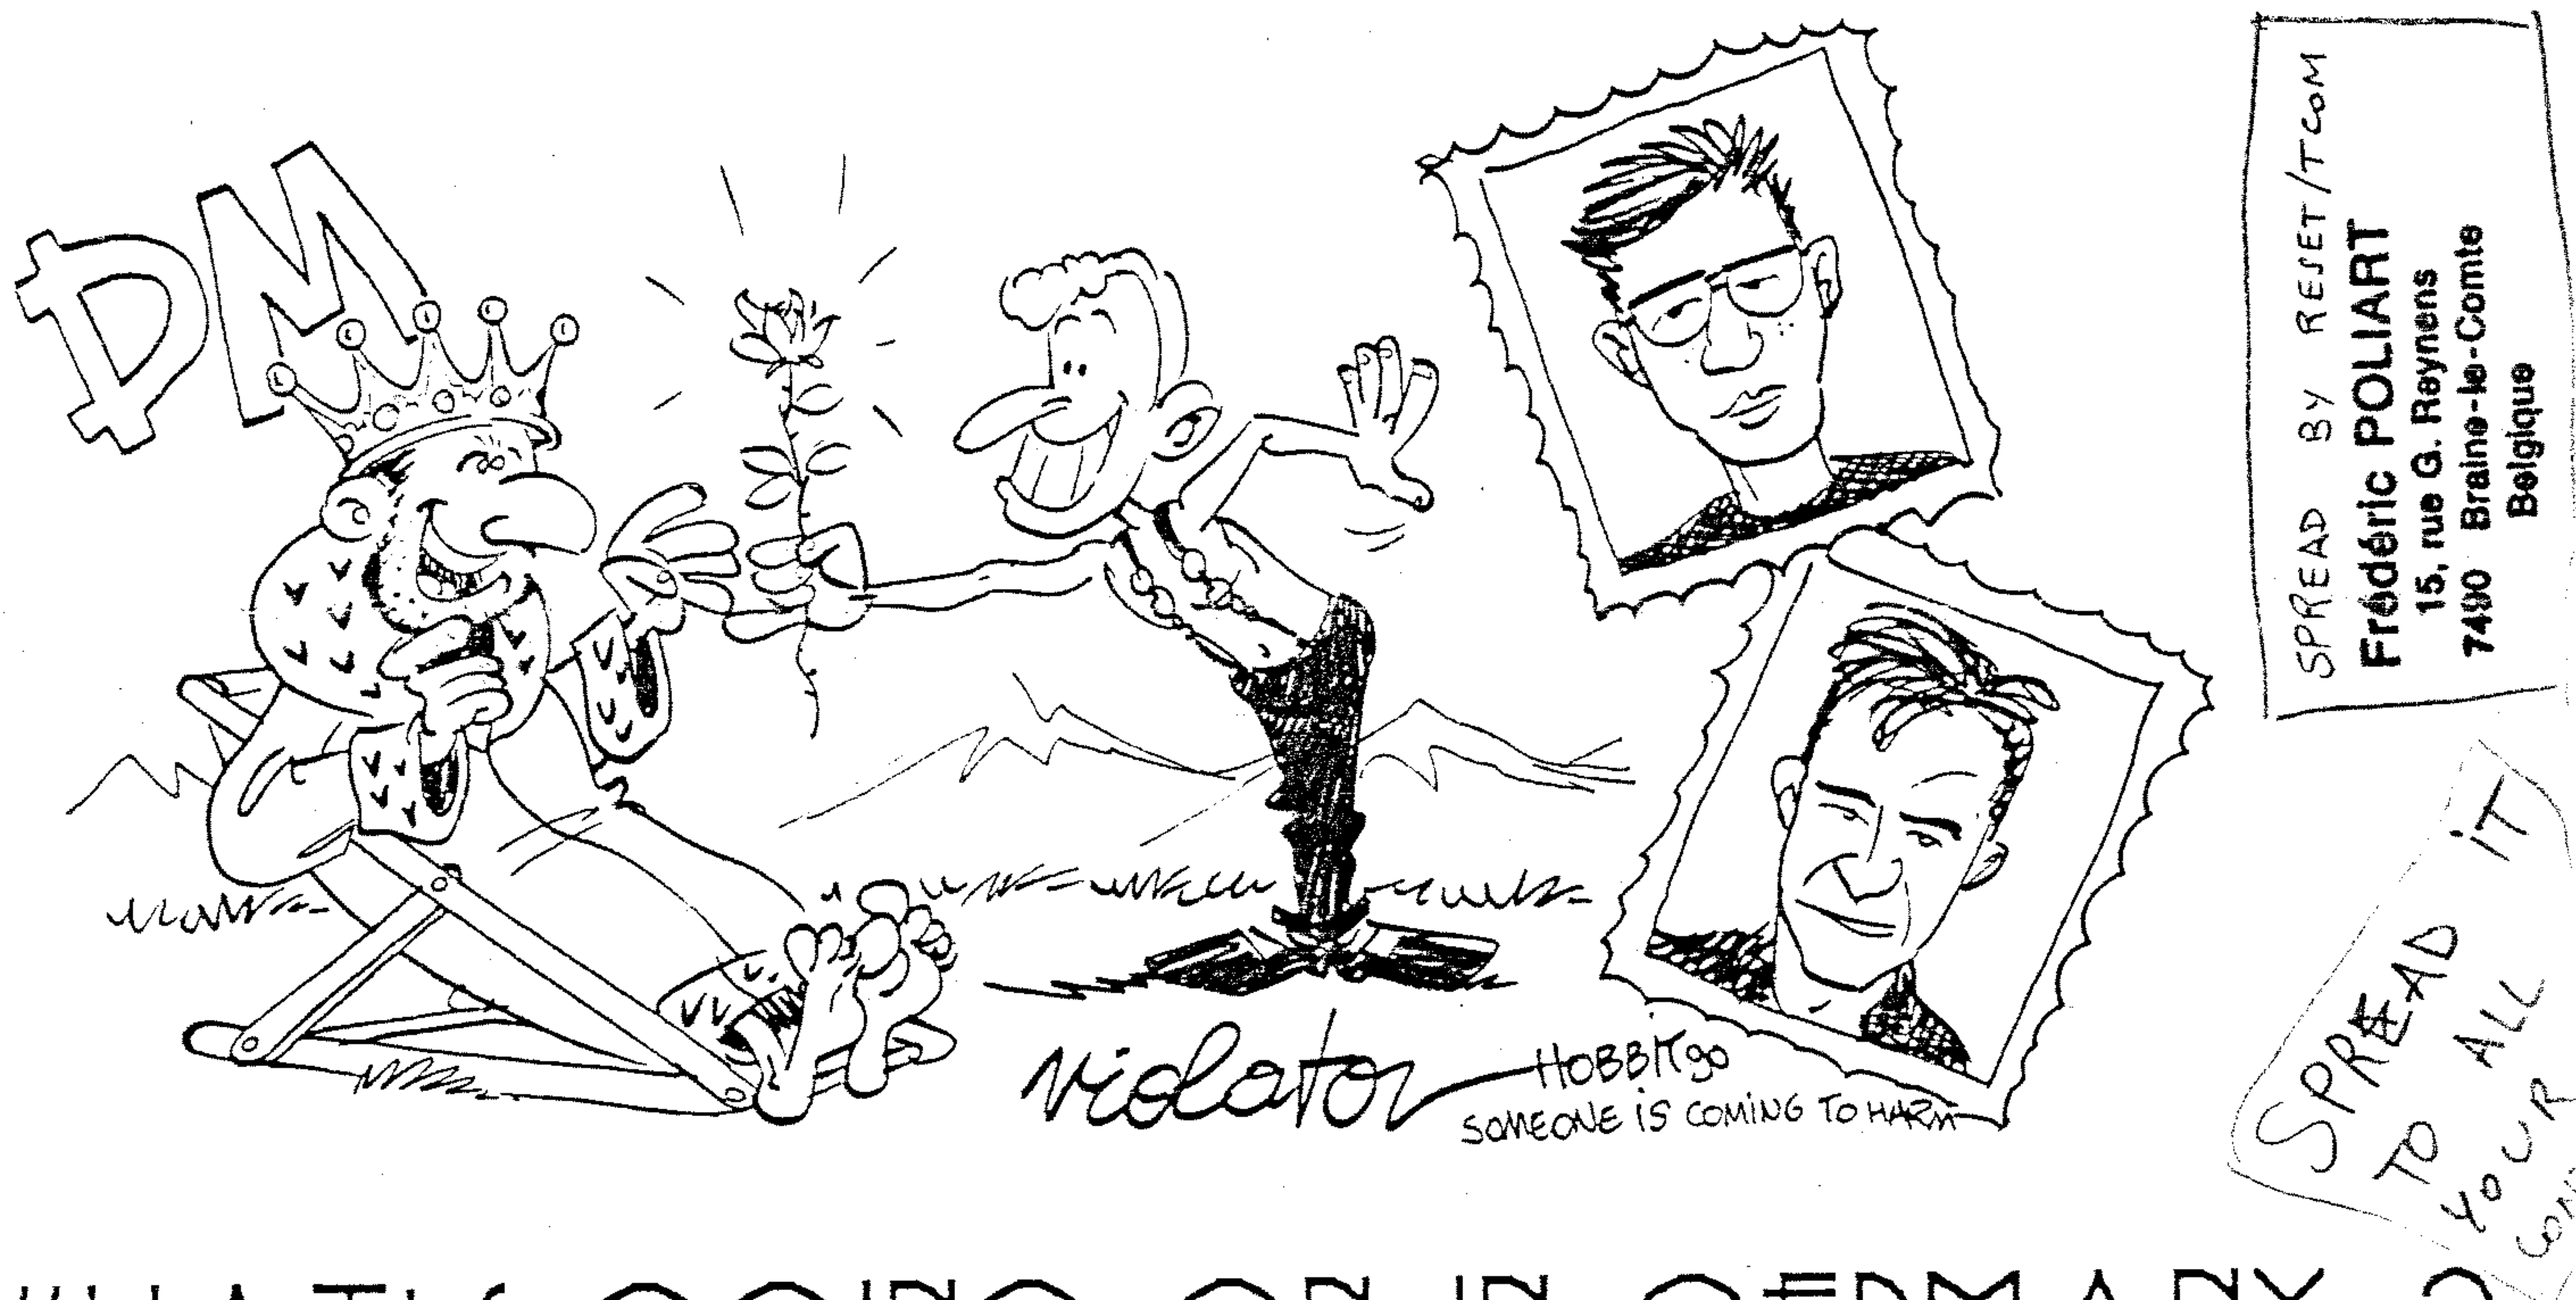

PERSONAL JESUS and *ENJOY THE SILENCE* are already "45" classics for real DM fans and a good "first contact" for novices.

HALO should soon be released on "45". It's something real strong on its own. Watch for it in the charts.

WAITING FOR THE NIGHT and *BLUE DRESS* are true followers to, what I call, DM ballads (cf. *somebody/some great reward or a question of lust/black celebration*). It's got a lot of atmosphere and it's relaxing.

POLICY OF TRUTH is certainly the best song on the album together with *WAITING FOR THE NIGHT*.

In conclusion, it's a pure piece of genius. If you want something real big, go for this one. It's a winner. I rate it like this 10/10. Who said I wasn't objective ?! Others albums that retain my attention these last few weeks are *THE MISSION/CARVED IN SAND - THE BEST OF THE CRAMPS - INDOCHINE/LE BAISER* (a french group).

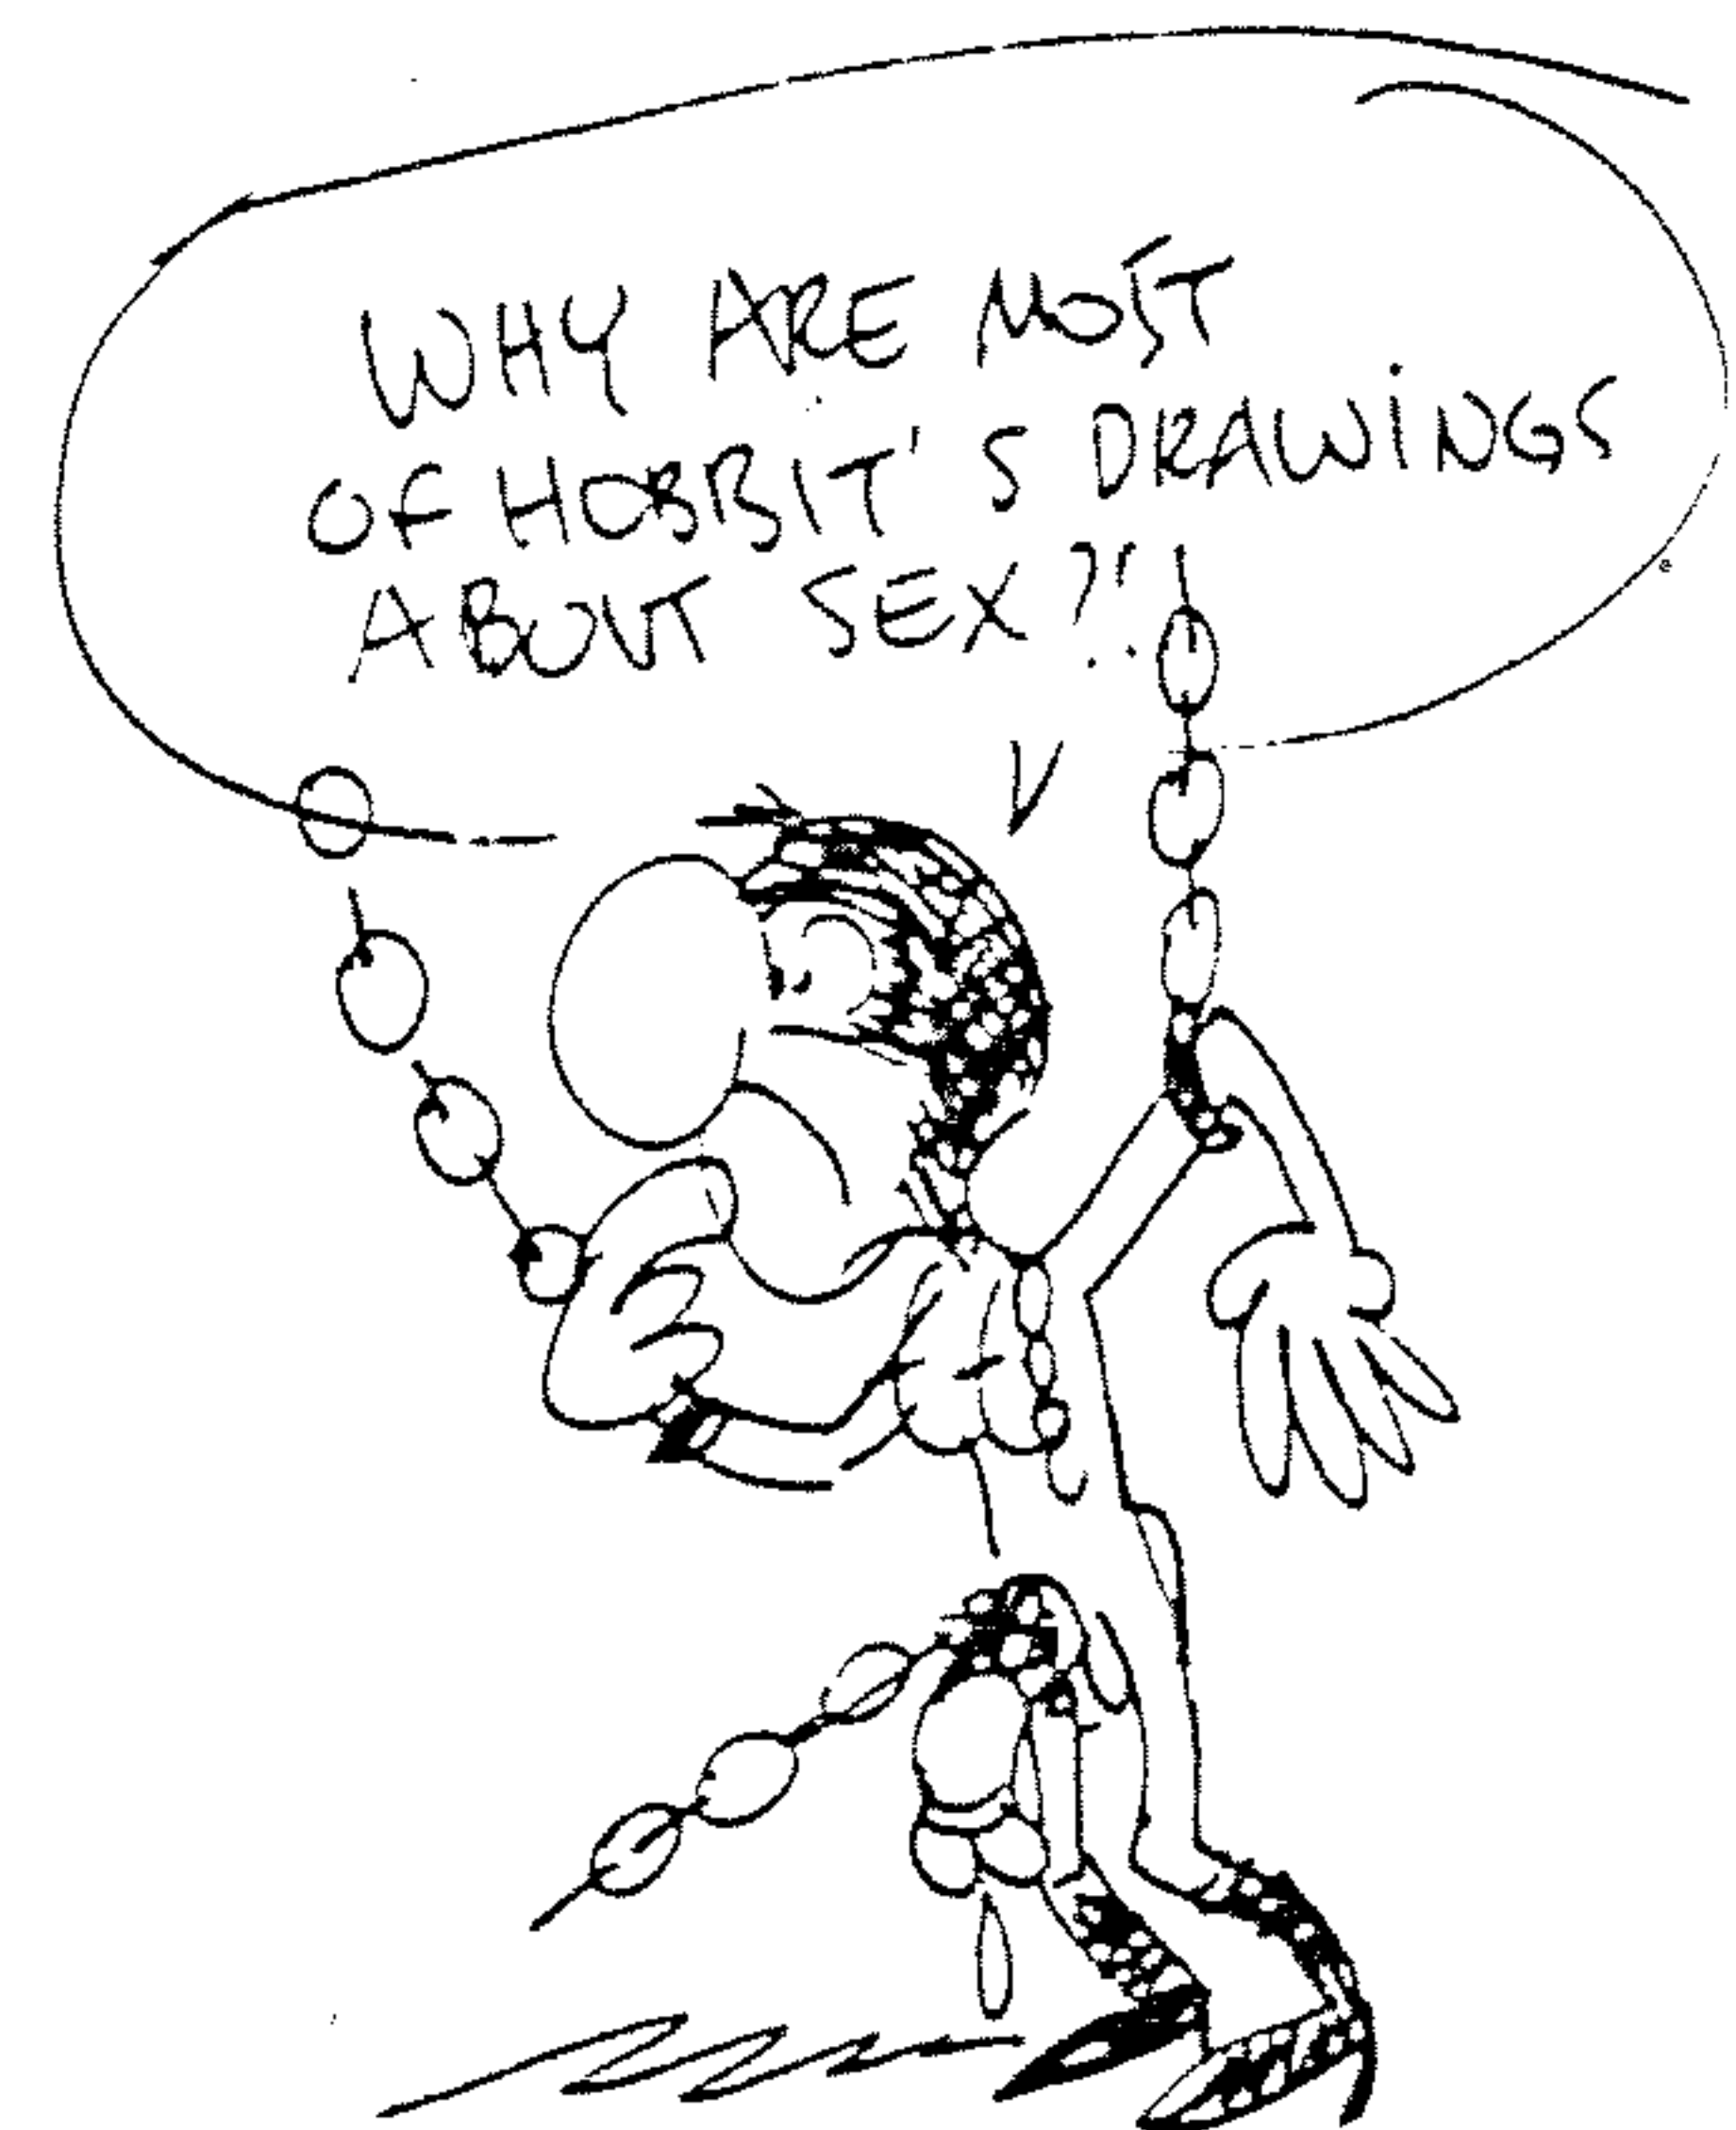

WHAT'S GOING ON IN GERMANY ?

The Chrysagon/X-RAY+SCS

So let's start... X-Ray is since a few months in cooperation with Success ! We have now since ... time only two members in X-Ray. They are Chrysagon (Me, Torsten) and Slasher (He is since 89 in XRay).

We stopped with the handle The Fleet us we saw that all guys thought that Rygar cracked all the stuff. But he stopped since December 89 with the 64 and went crew to the Amiga and he is since ... time out of X-Ray ! So that's the main reason why we found for us several handles. And mind now that Chrysagon and Slasher cracked all the stuff since December 89 and not Rygar ! Before that time he cracked only some games and never all the stuff we're released. If you want to order our magazine, then contact me : PERESTOIKA MAGAZINE, PLK 064528 A, 3330 HELMSTEDT, WEST-GERMANY or call me up, 49-535.163.25 (Torsten).

AMERICAN SCENE

THE
VISION

Yes, another couple months, another ★CCCP★, another *American Scene*. For those of you who don't know, Transcom itself has taken a foot-hold in the American scene. My BBS is now TRANSCOM USA HQ (619-541-1052). So everyone is especially encouraged to get on the BBS! Now, the immortal question: "Have you ever noticed...?"

...that Europeans think the world of their groups and think Americans suck -- and vice versa?
...that no one cares if you never got docs for a game that everyone won and erased two months ago?
...that instead of because, Americans say cuz and Europeans say coz?
...that all pirates talk about their manliness, when their main hobby

consists of only bleach-skinned, frail necked, illiterate, underaged, virgin guys?
...that no one replies on an American BBS when someone asks, What are codes for??
...beer tastes really great first thing in the morning (sorry, its a non-sequitor)?
...great American games are many sides and take up all your disks, but Euro imports are never over 200 blocks, and the good ones take up about 2 disks total?
...Americans don't want to know when the next F.A. CUP simulator will come out?
Anyways, thats enough *slagging off* for now (hey, at least I didn't say anything about Australia). Greetings to: *Thor/Trilogy, Luxury Boy/DEERS, Gadget/ACTION (call the BBS pal!), Ninja (your account is still good), and of course LKJ/TRANSCOM for all the help.*

IN OUR SPECIAL "SEX AND NATURE" FEATURE THIS MONTH LESBIAN LOVE AMONG PIGS!

HOW IS IT IN SWITZERLAND ?

Ouah, Oxygene of FULL FORCE writing sumthing bout da scenario in Switzerland... Hmm, since there isn't any CRAZY-member left, there is no sure leader in da demoscene, there is FUTURE CONCEPTS who rule. They sure have sum of da best grafixmen, but very slowly also, kiss is cuming up. As they aren't very loved in Switzerland (Sum time ago, they were great losers), they didn't win

any competition, also when I think datt they're pretty well! In da cracking scene there's no absolute leader, but FRESH sure isn't Number 1. As they wrote, WOLFEN isn't bad, but also CFA seem 2 get high-standarted. They're also a lot of swappers of big Erus from others countries (UNITED ARTIST, G*P, FULL FORCE (Hehe, we rule), ACT+LAZER, FBI...). The newest rumours say,

datt FRESH is dead... A few guys are happy about, I Think! At last, I wanna say, datt in Switzerland about 60% of da freax take drugs (Easy!). I do too, but I dunno how in others countries it is! I hope no swiss guy will get offended abous this report. I wish 'em many heart-attacks (Jocking)! But, if somebody wants to clear something about this: 065-52-83-10, Marco.

Oxygene/FULL FORCE

MUSIC, PSEUDOS & CRAZY! Accu/ACTION

Their are several styles of music. Nowadays *Rap, Hip-Hop, Acid and Pop* are the most liked ones. I personnally like Rap and Hip-Hop coz it's quite the same. Reason is that all the texts are sooo perverse and I like to hear perverse texts and to be perverse (Bust call my girl, Germany+2107-2943 and ask for Nicole, she's very hot).

Wellknown Rap bands are *Beastie Boys and Run DMC* but that's chil-Rap...

2 live crew is most perverse and ruling Rap band. Now a personnal wet virgin pussy to all Raps and Hip Hops in scene, contact me!

Than there is Acid (bäeh!), it's like that drug (shit!). Contact FBI Crew for that. Now, I'll write some words about Pop and Skaters. This way of live is a waste of time. Hi Crazy, are ya really crazy or are ya pseudos who are just wearing skater clothes. Be ashamed. I bet you listen to Depeche Mode... Heard their last song? 10... 9... 8... 7... 6... 5... 4... 3... 2... 1... 0 BOOOOOOOM, we blowed Cologne... Enjoy the Silence...
