NOW THE LEGEND COMES TO LIFE!

Editorial

SMASHER NO.3

Hi folks !

You all want to have a good mag, but you're too lazy to do something 4 it! Wot I mean: A Mag without demo-charts is like coffee without milk. If you send yar favourite demos to the following adress it has big advantages 4 yau.

FIRST: you won't loose yar disc 'coz you will get it back with 100%.

SECOND: you get the discs with megahot stuff back!

THIRD: you get into contact with number 1 in legal zwapping: Fun and Function

FOURTH: you can win two 1-years-abos of the 'Smasher' and 4 the number 1:3 packs of discs!

So get yar favourite five demos and send 'em to

GUNNAR/F2

TEST:

MINI MODEM 1200

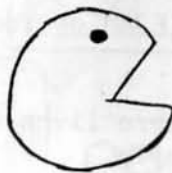

More infos and orders are available by:

resco electronic
Kobelweg 68 a
8900 Augsburg / West germany
Tel. 0821/407027
Tlx. 53776 resco d

facts:

- price: ca. 440 DM
- compatible to every computer
- can be used for USA trading
- incl. transf., telep. cabel + batterie
- can be used as a dialer

The Mini Modem 1200 is a complete high-performance communication system for small computers. It is compatible with all RS-232C computers. It can be operated at 0-300 and 1200bps on-line in full or half duplex.

The modem is an intelligent data communication system which can analyze and execute commands and send result codes in optional English word or decimal digit form. You can enter commands at a terminal keyboard or issue them through a program, in any programming language with ASCII character strings.

Throughout the working of the modem, the user can listen the progress of the call and be alerted to wrong numbers and busy signal. If a busy signal is encountered, the user can enter a repeat command and the modem automatically redials the last phone number entered.

You can see the operational status of the modem through the LED status indicators, too.

The design of the modem and the using of it is very good.

There are also some disadvantages :

The manual of the modem exists only in English, but you can understand it.

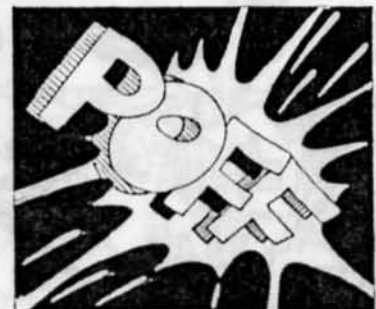

Another positive thing is that the modem works with batteries and a transformer. The modem only has the size of a cigarette packet.

NEWS

Here are some news from EUREKA/TRIAD, which we got in January:

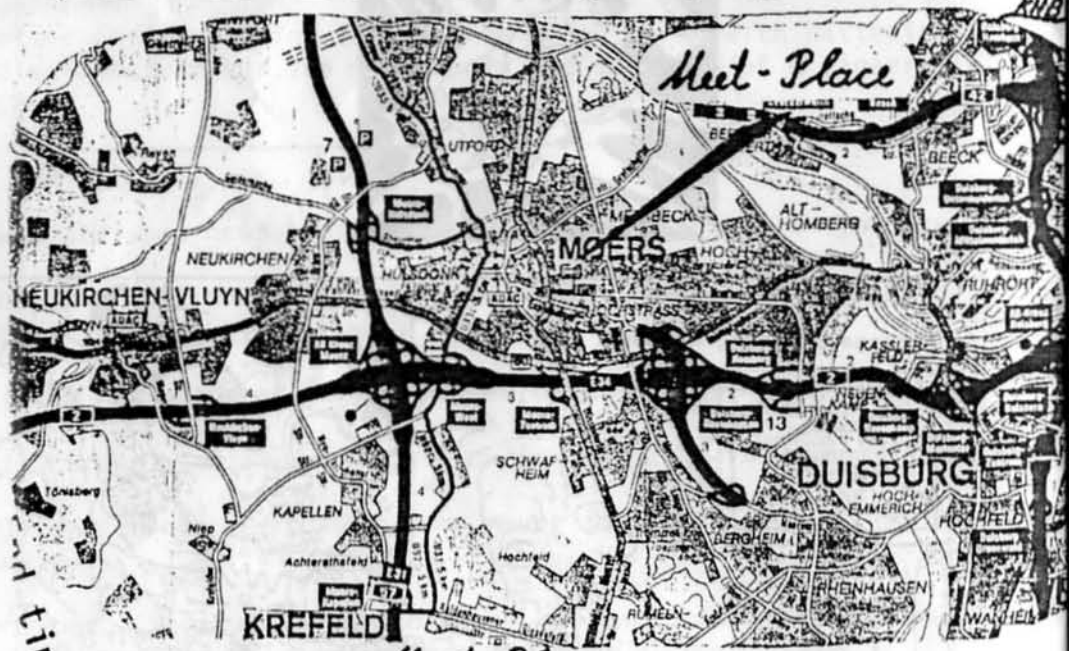

- *Bob and Goblin (ex AGILE), PSYCHO (EX PARAGON) and ADRIAN and Shark (ex FUTURE) founded a group called LIGHT.
- *TRIAD has returned to the market, they never die and will never
- *I (Eureka), Contring and Swallow (ex AGILE) have joined TRIAD !
- *If you're going to the cinema, never let Lorien/DEFJAM decide movie !
- *Ursborg (Stockholm) should be on the map, 'cause here lives 4 DEFJAM members, 3 TRIAD members and 2 LIGHT members !
- *The summer '89 TRIAD-LIGHT-DEFJAM will do a tour around Europe to visit our contacts and all parties !

OVER

Beduinen von Paris

Two desert inhabitants visit for the first time a city, namely Paris. It is a very good comedy which is worth to be lend from you local videoshop !!

Reich der Sonne

Steven Spielbergs film about the war was one of the hits in the american cinemas last year. Spielberg describe the terrify of the war in the perspective of the eleven years old boy. The boy is caught during the 2nd World War by jap. soldiers and have to fix the problems.

Good Morning Vietnam

The story is about an DJ in Vietnam during the war. He tries to sweeten the GIs war with hot muzax and cool sayings. This film is a really good comedy !!

Poltergeist III

This time the ghosts spit around in a high tech skygraper. They bother a little girl who wanted to visit her aunt. A expensive horror film.

Der Stählerne Vorhang (USA 1988)

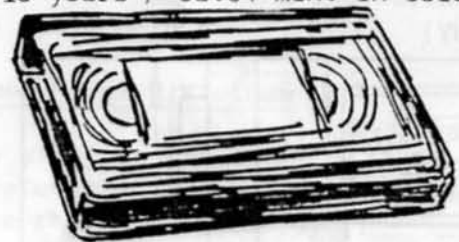

He was sitting in the prison, but he had enough courage to change his life and to live his dreams. Lee UMstetter (Nick Nolte) is this man - one who was a few time ago arrested for the whole life sitting in San Quentin. Then he was pardoned and is now moving with a in all condition strange group in the cities - with the 'Barbed Wirw Theatre'. To this group belong men who were all in the prison because of different crimes. Lee is the only one who has never seen a prison from the inside. The group is with a story on tour that shows days in a prison.

FSK:16 years / ca. 114 min. in colour / prädicat:precious

Midnight forest (USA 1988)

Sy Winter (Darren Dalton) emigrate in the silent of the forests to write his roman. He finds a place to stay at a mysterious family who prefers to play with axes and chain saws instead of needing words. The young man becomes the aim of their erotic plays. Before Sy recognizes the situation a murderous carrousel started that cannot be stopped. A fight for life and death starts and Sy is learning what mortal fear means.

FSK:18 years / ca.84 min. in colour / thriller

MIDNIGHT FOREST

Return of the living death II (USA 1988)

Did the army not destroy the mysterious barrels with the gaz of the zombies? Are the living zombies with their like of fresh brains not pulverized by the atomic bombs? The answer is: 'Yes, but...'. In the army a lot of things are lost and so the driver of the truck did not recognize that one of these barrels glided from the truck and into a river where it stayed for about 20 years until a few young kids found it by chance. And because the kids are curious they play with the shutter..

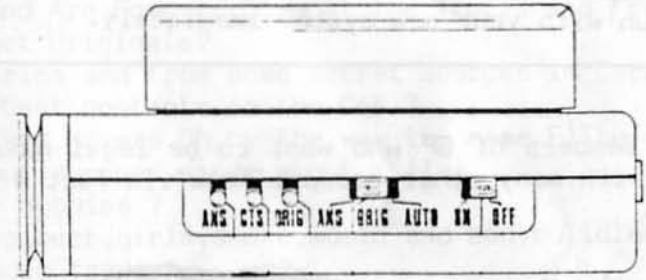

FSK:18 years / ca.86 min. in colour / horror-comedy

Continue of the test about the DATAPHONE

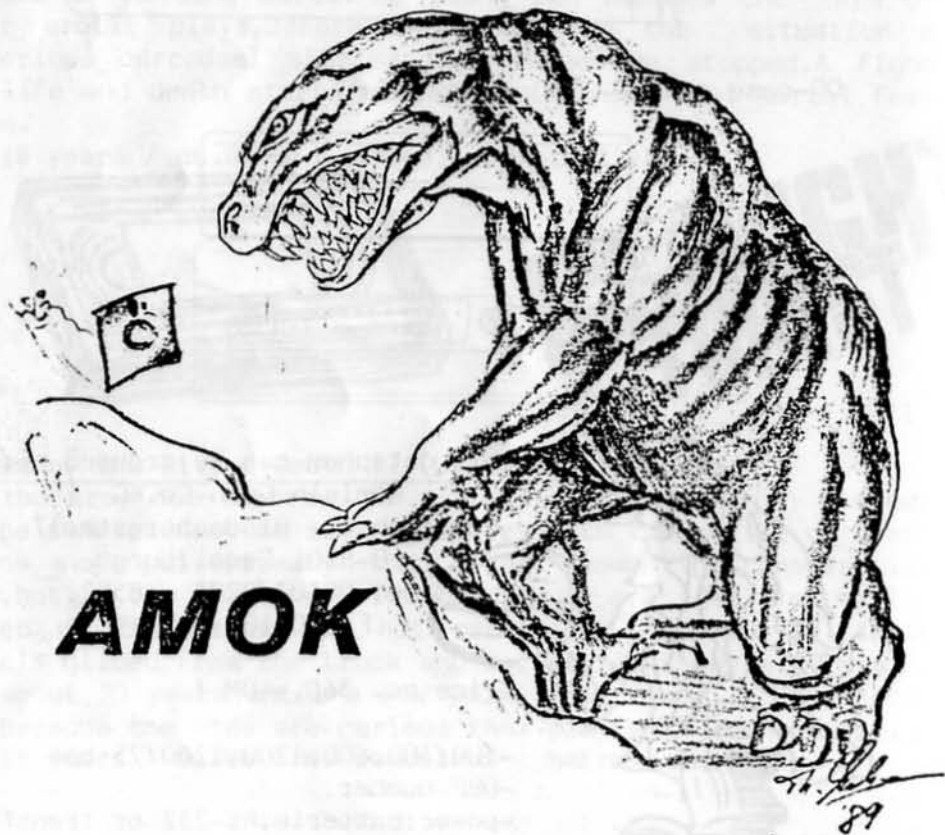

First I had problems to unscrap the golden paper of the data-
phone, but then I saw that it must be something wonderful when
it is a gift from my grandpa.. Oh, it sounds like the advertise-
ment, but the volume is at least as precious as the 'Werthers
Echte'.

Besides a long and thouroughly report how to use this data-
phone there are a lot informations about general ideas to the
transmission of datas, what is in fact very interesting to
learn.

The dataphone is easy to connect with your computer and so you
have fun with your new system imediately.

NEWS

A few members of GP who want to be legal have found a new big
group with many other groups: 'Amok'. In fact a company and not a
group!

SHORT INTERVIEW WITH ELITE

done by Wolfman of Xandor

Smasher: Okay, we heard that TWG is out, why?

Elite: They had no originals left, because SPC has been seen
on TV by some Softwarehouses.

S: Do you go on ?

E: Yes, we call us now ELITE built up by TWG, SF, Radwar and
Jeff Smart.

S: What hve you cracked already ?

E: Starboy, Diamond Are Forever, Down At The Trolls and Fraxel.

S: Where do ya get Originals?

E: Well, from America and from some secret sources in Germany.

S: What are the best contacts on the C64 ?

E: WOW, Ikari, SF and Movers. Oh, by the way the name Elite should
stay secret, but someone spoke about it!!

S: What are your Hobbies ?

E: Computer, video, beer, girls, smoke, music and bodybuilding.

S: What about modem trading?

E: My friend Chaos ones one and he does much with it. In the
summer I + Chaos + other lite mebers are flying for 2 or 3
weeks to MAYHEM (canada).

S: What are your top crackers ?

E: Ok, here are they in ranked order: Mayhem, Ikari, Elite, Fair-
light, DCS, Bros, Sphinx and BB. My top three of demo writers
are: Ikari, S 451 and Sphinx.

S: Thanks for the interview, bye.....

NEWS NEWS

TBF was kicked out of Sphinx.

GP #FE have an american member (Tyraie) and a voice mailbox
(VMB 415-995-2355).

Wonderboys call themselves now 'Falcon'.

The cops are going around and they are seaching for victims
like Freddy does. And they even take innocent people as we can
see fromm the X-Ample of Adam/F.A.M.E. They came to visit him
and took 50 discs with them and that nevertheless he didn't
swap!! But which programmer has no cracks? I don't know!!

TRICKS AND TRICKS

With this article we want to start a new series about tricks for programmers and crackers. It would be nice if you have something to write about for this series then send me your article to:

Greco
PLK 084763 A
D-5620 Velbert 1

- 3 lines synchronization for the TV
- 4 lines for a black gap
- 51 lines border (register SdD12 starts to count there)
- 200 lines normal screen
- 51 lines border

A rasterline needs 64 microseconds (64 ms), the size of it is now described. The TV requires for synchronization of his pic 5 microseconds. Then generates the Video Chip a black gap (6 ms) just as much as it needs for the border. After that the normal sreen needs 40 ms (a 'nop' is equivalent to 16 points or two characters). After it the border requires 5 ms and 2 ms for a black gap. If you add this all up you get 64 ms.

The VIC makes the black gap appear on the screen in order to avoid the raster to be seen when starting a new line.

If bit 4 in register SdD11 is set (screen on) then the VIC needs every eighth line exactly 40 ms to read the char-set (register SdD12 position 51,59,67,...) Those rasterlines require now 24 ms. If you switch on all sprites they need every rasterline 24 ms for the sprite-datas (one sprite switched on = 3 ms).

If you may write about the easiest and quickest way to crack para-protected original games or something else which could be useful for programmers, all contributors get a free Smasher and the possibility to advertise in this mag. Now I start with my article about the building up of a rasterline and the screen.

The VIC II-Chip generates 312 rasterlines in 50 pictures per second, there is non-interlace in opposite to a normal TV-screen (625 lines), that means that two pictures are equal, so the C64 handles his pic 25 times per

WOW PARTY

Yoho The World of Wonders Party on the 25.02.1989 was a cool party but there was no mstuff to copy. I started my trip to Aachen at 1.30 pm and I reached it at 2.00 pm. Waiting at the station I met some friends. After half an hour there were some cool guyz at the station like THE UNITED FORCS (hi DISASTER MAN DARK,RIFF RAFF and the other members) INDY adn QUARTEX and a lot more .

At half past three we went altogether to the party place. Now we installed our Amiga and begun to copy, but there was only lame stuff.Now the time had to eat something.I and sum members of the UNITED FORCE went out to search for a nice restaurant And we found a Mc D. rest.

Coming back to the party MAD MONKS and THE GURU'S were copying the lame stuff. TRISTAR (hey still watching Wrestling on Sky Channel ?) arrived, too. Since this time the party gets boring. Referring to the music which was there: The Sound Wizard of WOW made some superb sounds. Hey nice works,I love your muzax.My judgement: a waisted saturday but there were also some cool guys.

TID/PWR

NOTE: If ya don't think that all the answers of the interview with **Charles Deenen/Maniax of Noise** are right then send us a C30 audio cassette and we'll send you the interview !

The Party

WHAT'S GOING ON IN GERMANY ?

Sure you all remember old german legends like:Dynamic Duo, Radwar/TLC, Beastie Boys, the german Triad members, 7UP and all other legendary persons. Are the times in which Germany was the axle of the scene over ? It's right that many good German groups died or splitted up (TWG,SF,MCG...),and there's a big brunch of lamers, but the german scene is still alive ! Because only the groups died and not the persons ! So take,just for example,Jeff W. Smart and T.K. from old SCOUSE;after SCG was dead they decided to join the new group ELITE together with many other like:CONAN,RAGMAN(both ex SF members),MR.CURSOR,KGB (ex TLI) and a few others from TWG. So at the mo' they are No.1 in germany.Similary to this a few members from MCG,DRIVE and the whole OCTAGON formed PARAMOUNT which is a real rival for ELITE.But also have a look on SHARKS who are back after some time. They consist at the moment of almost the smae members like in former times.New is X-trade (Twilight/MCG).Tim (GASH) has left sharks and formed BABOONS(look at SHARKS party report) So the ten best german groups are (in alpha order):711,ACTION, ELITE,FIRE EAGLE+GENESIS,LEVEL 99,PARAMOUNT,SHARKS,WARRIORS OF TIME,X-RAY and ZENOBITS.

Miss BEASTIES ?? Yep,after Axiom (Germany) stopped they are mostly dead here in germany. Only their cool modem-trader Axiom from Switzerland is still very active ! The other members like Syndicate,Capt. Future,Access are very lazy (lame) at the mo'. To end the article I want to send many friendly hellos to all contacts of ZENOBITS !

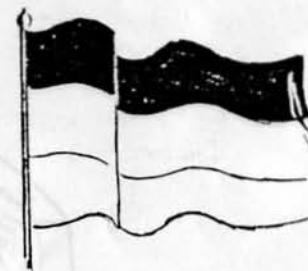

Bad/ZENOBITS

-Jog joined PULSAR,after SUB ZERO died.

-The german group SPELLMIX joined BYTESTAR.

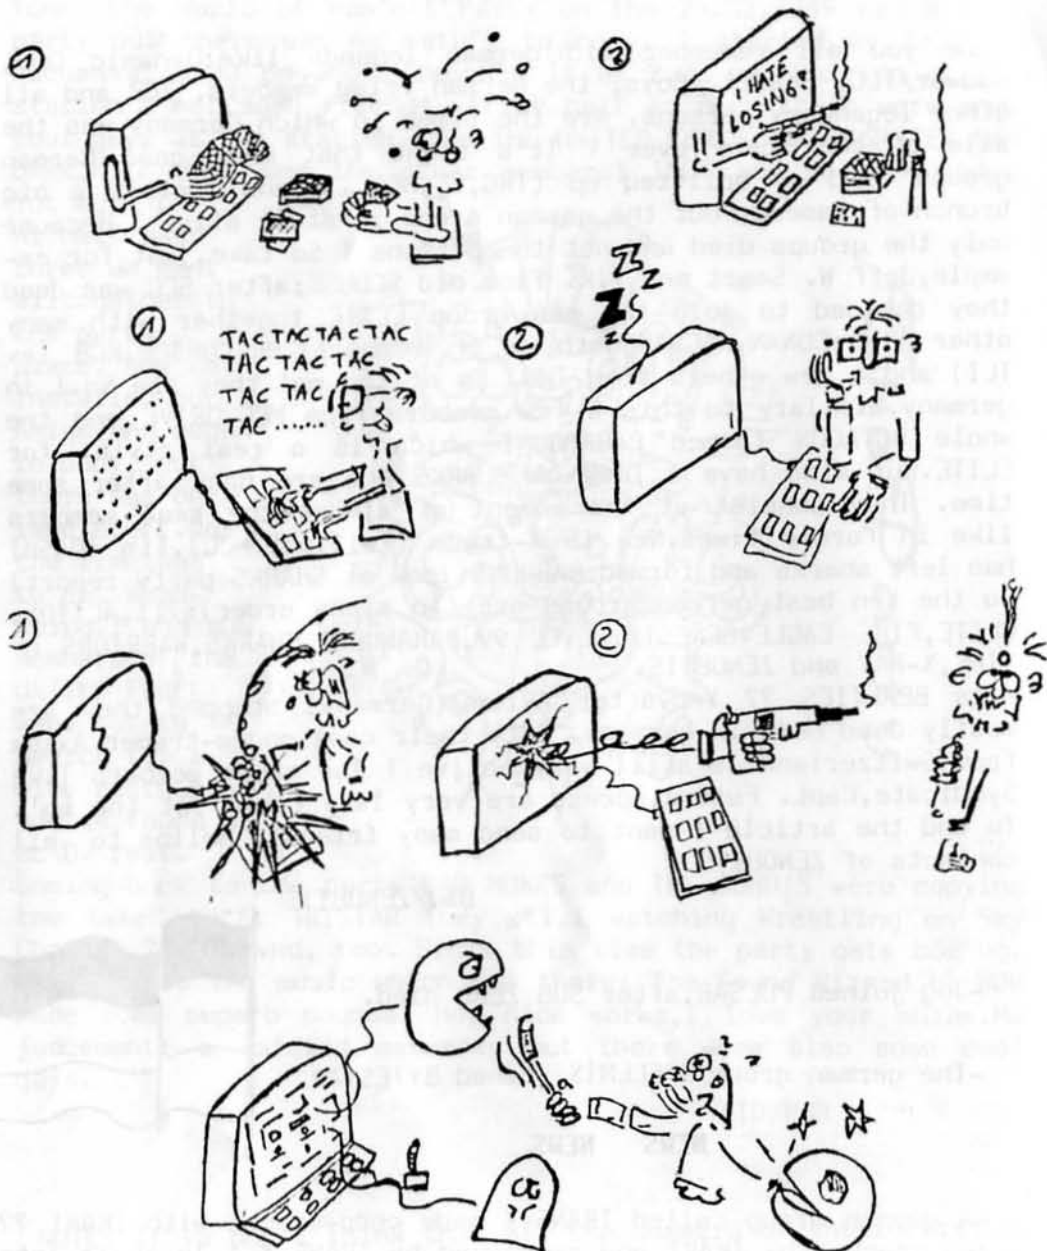

NEWS NEWS

-A german group called TRANS-X made coop-cracks with IKARI ???
 Yep,cracked by IKARI and re-cracked by TRANS-X ! In their intro they have written that they are now the number 4 in germany.Yep they are number 2 in the 'leading-five-lamers'-charts !

COMPUTER HATE CORNER

© by Pias

A new group is born! RCS 2100 (Ex-Bros) and Axion 1999 started the new powerful group called 'Crazy'! They want to be soon at the European's top 'coz of their soon coming high quality cracks and super demos and fucking hot US-imports.

The Fall Guys

(story, facts, backgrounds)

A warning to all!

Development of TFG:

In 1982 four computerfreaks got a C-64. At first they wanted to play like everybody. Eventually they wanted to do more: to crack, spread, to program and to swap. They called themselves CIS to begin with, but soon they disliked that name and changed it into 'The Fall Guys' in 1984.

They had some cool contacts like DCS, Seven Up, Dominators, Jabba, Idefix, FCS, Hotline etc. (by the way, Alpha Flight were members of TFG). By 1987 only second-rate C-64 cracks like Clever&Smart were handed round, so they decided to change to AMIGA in summer. At first they were occupied with programming, e.g. the game 'Scrolling Walls' and soon releasing a really cool Carate Game, therefore they were not so well known in the AMIGA scene, but they soon wanted to change that. But then everything went wrong.

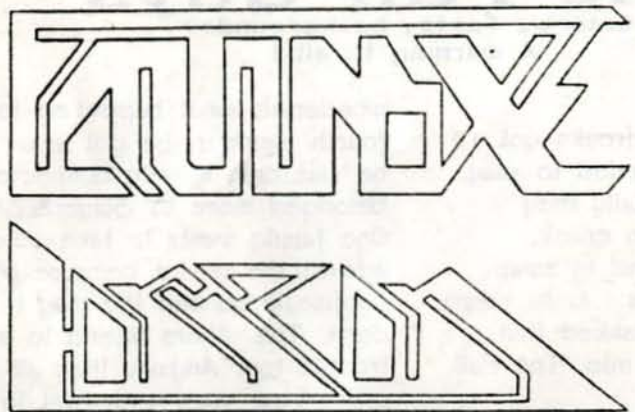

On December 6th '88 the police came with three men to each of the three members. It was 8am in the morning and none of the boys were at home. In one house the police broke open the door and left a notice. At two other places (parents were at home) everything went according to the (police-)plan. They found 150 addresses (both AMIGA/C64). They took 800 C-64 discs, 450 AMIGA discs, two AMIGA, one C-64, monitor, and printer. They could not confiscate the third AMIGA because it could be proved that it was bought only one week before. If you're

wondering what happened to the fourth member, he got away because he was only loosely connected and belonged more to Slayer&Exodos. One family wants to take action against the police because of the confiscation and the way they were done. The others intend to make trouble too. Anyway they all plan a come-back soon and want to go to the meeting in Denlo January. The reason they were busted could be that the address of their main swapper was found and his telephone was tapped. Another possibility: They kept their name for six years. On Wednesday 4th January they went to the police. Now is this bloody sucker of Ariolasoft 'von Gravenreuth' (well done Markus/RWE) investigating against TFG.

We (the Tankard Crew) are happy to announce that we plan an anti-demo series with Xades Society, Bytestar... against Teddies/Blackline, because they stole addresses and dough from SPT/Xades. This isn't the only reason we want to take some action, but also because the Jaraks didn't return our games but put the same games on the market only a week later (he,he!)

Have fun and be careful!

..... is invited to the HORIZON/EQUINOXE copy-party in Eskilstuna on the 12th-15th of May 1989. We will start Friday at 18:00. On Monday at 15:00, after four internal days and nights the party is over. The party will take place in Stålforssskolan, mark 13 on the map. Close to the school you can find pizza hut and some stores. There are really good bus-connections with the city, if you don't want to walk. If you drive from Stockholm, it's easiest to pull off at "Eskilstuna east" and drive past "Country Hotel", mark 25. If you come by train, you will stop at the central station, mark 24. It's a little too far to walk and there are no direct buses between the school and the station, and therefor we can pick you up if you give Verdun a call latest Thursday the 11th. We'll do our best to see that you all get in time. Bring your own computer-stuff including cables and extra-cables, grounded if possible. If, hopefully not, you would forget one cable there is a small chance we'll have an extra. Some restrictions for renting communal property is: No booze!!! No smoking inside! If you must smoke do it outside, please! We have enough space for you to sleep. Bring your sleepingbag! You are very welcome here, we'll have a great time. We will copy, hack, crack and everything else, you know..... Be there.

Signed: Bagder of
Horizon

Call Verdun of Equinoxe for questions or pick-up on 016-423076. You can't reach him on this number during the party, of course! There might be another number then. We will inform you about that later.

TEST: TELETEXT Dekoder

You can order it and infos by: PRINT TECHNIK
Nikolaistr.2
8000 München 40
or call: (089)368197
Tx.523203d

With this decoder you can get infos via your computer from whole europe. You only need a computer and a floppy and you have 'Videotext'. You can save or print the informations, if you need it and can use the files in your programmes. You only must connect your computer on the antenna and you receive the text pages. If you have cable TV you can get SAT 1, Sky ... infos.

We can't tell much to this because you only have to plug in the plate, load the programme and start, but this little thing really impressed our crew so that we bought one for us! If you don't have Videotext in your TV you need it! If you have it we only can say: buy it and enjoy it. It would be a good gag in demos to insert these pages.

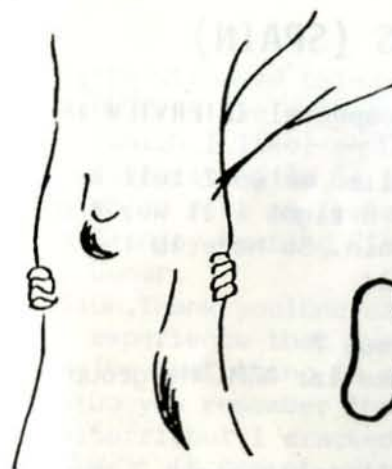

NEWS

The cops visited Frank/711. They took his computer and his discs but on the discs was only Public Domain Stuff (what a pity shit, eh)

In the scene there is now a group called 'Fun and Function' (they are members of the BASTERS INC.). They're 100% legal. You will say: 'That is normal', but it isn't! They swap... so they are the first legal group that swaps. Perhaps this will be the '89 trend?!

GP+FE have now a femal member (Lady Binaer) (cool, eh?).

DO YOU
HAVE

Hints

If you have some hints, tricks or plans then don't let them only for your own amusement! Send them to us and you will get something if it appears in the SMASHER. Write to:

SMASHER - HINTS
Postfach 2105
4150 KREFELD 1

We will contact you, when we got your hint !!!

NEWS

- WASTE is dead! So the members who were left built, with and ex WUI member, a new group called GROVE!
- Three members from THE WEST END BOYS (Ram Phantom, Axeman, Deadlock) joined now VIPER DESIGNS.
- JOE COOL and SCRATCHER (ex MCG both) joined PARAMOUNT.
- The wellknown FBI-CREW from Hungary are now members of THE NEW FORCES (?) from Germany.

If you have a good or interesting article, report... then write to us. Send us the text by envelope or fax the message to us. If you didn't have a fax contact your local post office !!

WRITE US !

INTERVIEW WITH BLASTERS (SPAIN)

.... and now as usual on this place the special INTERVIEW :

Once my (Gunnar/Fz) best contact friend called me up 2 tell me that Fz are now members of TBI ! Yes, you R right ! It woz ACM/Blasters Inc. which is the Number 1 in Spain. So here is the result of a interview with spains number 1:

SMASHER:Wot's your name, guy, and your group ?

ACM:My real name is Angel but my piratenname iz: ACM. My group is: TBI.

S:Wot does ACM mean ?

A:Thiz are my initials...It's an old tradition in Spain 2 use the initials 4 the crackername !

S:How old R u ?

A:I'm 17 years old since the 5th January !

S:When did you buy your first computer and which one woz it ?

A:I bought my first computer when I've been 13 years old and it woz the good old C64.

S:When did you start 2 programm ? (I know you are one of the few guys which are able 2 programm and crack in Spain !)

A:I started 2 learn two years ago with basic-shit ! At the moment I learn "C" for the Amiga but I must tell you, and all readers: In Spain it's very difficult 2 learn programming 'coz here aren't any books 'bout it and I must order them from England and learn programming with English hints. Really hard life !

S:Ok ! Another question: when woz Blasters founded and wot is the meaning of the name ?

A:Blasters woz founded in January 1988 and the name has no meaning at all. We read it on a video game and then one thought 'Cool name! Why not take it?'

S:Which were the founders and how many membes have you got now?

A:The founders were:JR PREDATOR(C-64 Zwapper),BSR(C-64 & Amiga) and of course:me!

We have now 22 members ('Hey Gunnar:you r also one of these guys!)!16 of them are in Spain,1 in Denmark and in Germany.

We r international.Perhaps i have 2 add that the 5 German members are only legal guys which swap and code 4 Blasters.

S:Ah,very interesting!But now lets continue with sum personal questions!

A:Yes,of course!Ask!

S:The standard things:Which is yar favourite music and film?

A:On C-64 I've got many,many cool zaks!One of the (which I like) on C-64 is:Allayrun from Maniacs of Noise.My favourite film is Indiana Jones I with Harrison Ford.

S:Which real musics r you hearing in your spare-time?

A:I enjoy hearing Classic Musics and all of yar cool Tapes, Gunar.

S:Oh,thank you!One other thing:which woz your best personal experience that ever happen 2 u?

A:The best thing in my life woz doing my first crack!

S:Do you remember the name of the game?

A:Sorri,but I cracked 2 much games 2 remember the name.Sorri!

S:Well it doesnt matter!Pleze tell the reader something 'bout Piracy in Spain:

A:Oh,yes!I will do it with a lot of enjoyment!Well,in Spain there r no real laws against swapping and cracking.!We (Blasters) go every Sunday morning 2 San-Antonio-Market 2 sell our newest games and cracks 2 lamers.The place were we sell 'em is before a police station and sometimes the police one and we have 2 pay a punishment 4 selling without any permission but not 4 seling illegal stuff(crazy,eh?!).We make a lot of money there but we need it 4 stamps and discs!You can also make advertisements in newspapers 4 zapping illegal stuff and no one will say sumthing!

S:Very nice country,I think!Another personal question,Angel!Wot r the Blasters doing in their sparetimes?

A:Oh,spare-time is very,very rare!But if I personally have sum free minutes I enjoy sleeping!

S:With yar girl-friend or alone?

A:Most time alone(he,he)!I need it for retirement and I sleep also because the Spain TV is shit(except of football!!!).And when we've sum money from selling games we all go in discos and pubs!

S:I think,that woz a very long interview!Iz there sumthing left 2 say?

3

A: Oh yes, of course! We plan 2 hold a copy party at the beach in July, but we don't know yet the exact prices! But if you want 2 an invitation 2 the party, or wanna swap hot C-64 or Amiga stuff write 2: APDO 14227

08017 BARCELONA

-SPAIN-

and of course: no lamers!

S: Okay, 4 invitations and legal zwapping you can also contact the German Blasters: F2

The address is the same as the demo-charts:

GUNNAR/F2

GRÜNE HARFE 16

4300 ESSEN 16

WEST-GERMANY

Then i have 2 thank you 4 yar call and 4 the long interview!

A: No prob, man! Hope 2 c all cool readers in July! Bye, guys, Bye!

Telex NEWS

-ZENOBITS/NATO the cooperation is broken a few weeks ago!
-GASH is dead! Their main coder Tim first joined SHARKS and is now in BABUONS.

-After TCM died their coder TGS joined ZENOBITS!

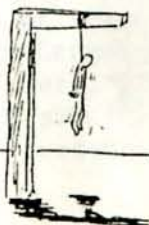

-TRI-DUS left IKARI and joined DCS. In the future he will only do '64 multi-load-games' for DCS. He is also a member of the Amiga group ORACLE.

-ABS from SPHINX decided to stop swappin' on 64 because of no good games'n demos which are worth to be swapped.

-After Germany now France ?? The cops were very active the last few months in France so the leading ACKERLIGHT died. After that two members decided to reform EOC.

-Steel from DOM changed his name into Dimitri.

-Dvi and Drax from HELLCATS decided to stop activities on C 64.

GELD

The story of this comedy is simple: a kind housewife finds out that her husband is unemployed. The debts are growing up fast and so the wife walks into a bank something strange in her mind... Made was this crafty film by Doris Dörrie who is known for her films 'Männer' and 'Ich und Er'.

Ein Mann wie Taffin

It is a western that is playing in island and in the present: Pierce Brosnan who is famous for his acting in the crime serie 'Remington Steele' acts a modern asphalt cowboy who helps the habitants of a small city against - however - a powerful tycoon.

My stepmother is an alien

Stepmothers are always terrible, but now there are some from the space. In the science-fiction-comedy with Kim Basinger and Dan Aykroyd a confused doctor is marrying an alien (see next page for a report in detail).

Rain man

Dustin Hoffman and Tom Cruise act in a film of the superclass: The regisseur Barry Levinson ('Good morning Vietnam') tells us the story of an unequal pair of twins. The first is mad and the other has always trouble with his debts. When one of them is heritated a travel with many trouble starts that change both characters.

BEST FILMS OF MARCH

beginning of march:

- Gekauftes Glück (BRD) ** , drama
- Himmelsheim (BRD) ***
- Karriere mit links (USA) **** , yppie comedy
- Die Ledernacken (USA) **** , vietnam war/action

Twins (USA 1988)

Ivan Reitman is back with a new film:Twins.After his success 'Ghoubstbusters' this film is a mixture of a comedy and a drama and of course with a lot of action because of the superstars Schwarzenegger and De Vito (known from Italian films with Th. Milan or Bud Spencer).

And this is the story:

A beautiful woman is impregnated with sperms of a few well-built Einsteins. The programmed miracle of the creation of a ideal human being is after nine month:twins. Julius(Schwarz.) is growing up far away from the civilation, his brother Vincent is developing into a swindler.When Julius is visiting the USA to meet Vincent they want to find their mother who is missing in Texas.

We only can recommendthis film.We think that it is with the film 'My stepmother is an alien 'the best film of the month!

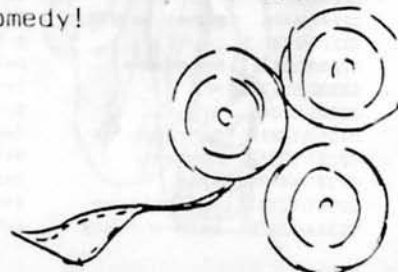

German start:23.3.1989

My stepmother is an

Alien

After an failed experiment Dr Steve Mills (Dan Aykroyd) visits a party where he mets the beautiful lady Celeste(Kim Basinger) who wants to know the constalation of his experiment because her planet is in danger.Dr Steve is not interested in his labour any longer but only in Celeste.Because she is an alien she doesn't know very much about the habits of the human beings,but she has a bag that is helping her at any time. But Jessie - the daughter of Dr Mills - is distrusting her. Besides the other aliens want to destroy the earth after their planet is saved.But - however - there is a happy end. This film is a really funny cosmic comedy!

QUESTRON II

TWILIGHT TOMB

THE REALM OF SORCERERS

SMASHER
Shark's copy-party-report:

COPS WEREN'T ABLE TO ACT OR SHARKS PARTY !!

The party was planed to start at 11 o'clock and it should last till sunday at 17 o'clock. Tim of the Sharks and Rodney of Gash came at 10.30 to the party. Opening the door there were four men standing in front of them: they ran away imediately. When the two other organisers arrived they didn't believe that the cops were inside and they entered with their computers and illelgal stuff: seconds later they ran away, too.

We met us at the station and were waiting for the other groups. After about 30 people met at the station we hide the illegal stuff and went inside together.

The cops asked imediately 'Who is Tim?'-they had his name from an invitation and Tim went inside. With our parents' help we could explain the cops that this would only be a legal meeting to change our experience with a disco. Tim act an ignorant and he was explained what cracking and illegal swapping means- there was a lot of fun!

now the cops went away and the party could start. Mainly there was recorded 'Ärzte' and 'Toten Hosen' and everybody was programing on his computer.

To give a few names of groups who were there: Sharks, Wiered Science, United Artists, Vision, Lazer, Bros, Savage Ex-Gash, John Sinclair, Crypt, Devils....

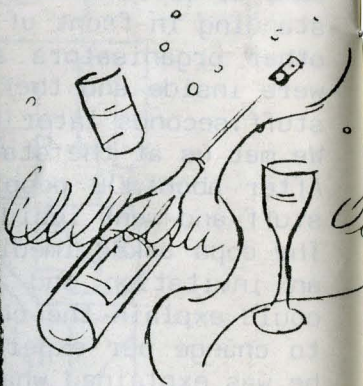

PIC. 1: The group Wiered Science...

After nearly the whole group of shining 8 explained his integration with the Sharks to one new group, four members of Shining 8 met together a new group with the name: Baboons!

PIC: Vip, Tim, Fate, Tanner..

PIC.:Savage swapped their newest crack..

John Sinclair talked with Tim of the Baboons and with Rodney of Ex-Gash.

the end there were 50 people and so the party was declared 'lame'. A few groups wante to have their money back-what was refused.

besides it is the cops' guilt that so few were there at the end cause the most ran away at the beginning

CLEVER CONTACTS

Who needs new dataphons from the firm PARCON only for the half of the original price (no stolen ones). For 300 bps - 1200 bps ! For infos write to (put a stamp in the envelope):
 RECO , Plk 084763 A , D-5620 Velbert 1

Contact TOP ONE:

Plk 014234 C , 4650 Gelsenkirchen 2 . We also make demos for looser because we have a heart for losers.
 *** WE are the choice of the champs ! ***

Now here are only some advertisements ! If you're searching for something, needs contax or wants to sell something, send your FREE advertisement to SMASHER , Postfach 2105 , D-415 Krefeld !

NEWS

Zenobit's muzak-man 'Yazz' has left ZEB. He now only makes music on the Amiga together with Ridi. They call themselves: 'Artless Music of Enjoyment! An Intro-sound for Vision Factory is realise and it's so good that Vision Factory asks them to join them, but they won't! Perhaps a big mistake of you, Yazz??
