

FASTLINE.NU - PORT 1541

DESIRE - HOKUTO FORCE - MAYDAY - LAXITY
TRSI

Amiga - Commodore 64 - Spectrum - Atari - PC

HOW TO GUIDE v0.5

it's new... it's old... it's back from
the golden era of the scene...
risen from the dead.
let us introduce the one and only bbs
that matters to the scene: Fastline.

cooperation bbs between some of the
most active groups around desire,
hokuto force, laxity and mayday!
one of the fastest boards in europe is
now online once again.

our goal is to be the number one bbs
in the active c64, amiga, atari
and spectrum scene.

1.0

Connect to Fastline with MTelnet or ZOC Terminal. (See below for instructions)
When you have connected, you should see:

ModemLogin

```
Welcome to Fastline, located in Hokuto Force - WHQ.  
Your connect is to Node0 on Fri Jan 08 23:15:55 2016.  
InitBaud is 38400, Modem Connect at 19200 Baud.  
This System is running FAME v2.8 (31.10.99) 20:23:46.  
The Copyright is 1993-1999 by IN-Ovation Soft.  
Registration: FAMFF-10000020909000010
```

Checking Status.....ok!

Node	User	Status	Init Baud	Serial Baud
# 0 >>>>	YOUR NODE <<<<	>>> Logging On <<<	38400 bps	19200 bps
# 1 >>>>>>>>	- <<<<<<<<	Initializing Modem	38400 bps	38400 bps

ANSI emulation? (I/y/n/r/@) >:

Chose ANSI Emulation Y/N

ANSI is an form of GFX for BBS.

For the moment there are no specific ANSI GFX, so use N for better speed.

If you reach this you came into the system, and you just need to logon.

1.2

When you logged on you should see this menu.

```
Mo!
-----
O  | PAGE sYSOP           C  | cOMMENT to sYSOPS
G  | LOGOFF              X  | eXPERT mODE [oN/oFF]
M  | aNSI mODE [oN/oFF]
-----
  \
  \|
```

You have 16665 mins left.
Fastline <<1:nEW uSER>> Menu >:

Press J and you should have this menu, if you have access to the BBS.

```
-----
                                     STZ!/sE
dRE!joiN v1.2 by dR.dRE!/tRSi (/F_iNNOVAtION)
[*]=====[*]

[ 1] nEW uSER           [ 2] C64 Demos
>[ 3] <C64 Warez       [ 4] Amiga Demos
[ 5] Amiga Warez      [ 6] Ascii/ANSI Warez
[ 7] FAME BBS Files   [ 8] TEMPEST BBS Files
[ 9] Requests         [10] Reserved
```

Chose what area you want to access.

So if you upload files in Conf 1 they are Only available there.

Same with messages.

FASTLINE HAS THE FOLLOWING AREAS FOR THE MOMENT

[1] nEW uSER	[2] C64 Demos
[3] C64 Warez	[4] Amiga Demos
[5] Amiga Warez	[6] Ascii/ANSI Warez
[7] FAME BBS Files	[8] TEMPEST BBS Files
[9] Requests	[10] Reserved

2.1

COMMANDS (Most important):

U = Upload file
D = Download file
E = Enter message
G = Logoff
J = Enter new conference
F = Filelist

2.2

UPLOAD:

Join correct conference, example C64 Warez

Press U for upload.

Just press Enter and chose Z Modem or what protocol you want to use (Z Modem is BEST)

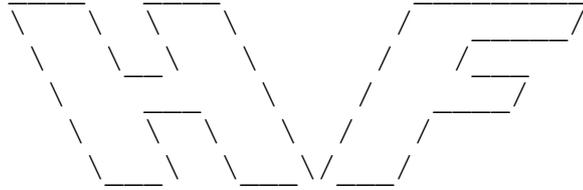

No need to enter file name, just start upload.

Then your terminal program should open file handler and just chose file to upload.

* Name files like: MYD_XXXX.ZIP (12 chars)
* Add FILE_ID.DIZ into archive and BBS will take care of FILE DESCRIPTION when uploaded.

FILE_ID.DIZ EXAMPLE:

----- CUT HERE -----

HOKUTO FORCE PRESENTS ANOTHER RELEASE:

MEADOWBROOK NINE

----- CUT HERE -----

2.3

DOWNLOAD:

To download files you must first know what files you want to download.
Join the conference you want to download files from.

To show files:

F A = Show all files in all directories.
F # = Show files in selected directory
N S U = Show new files since you logged on

Scanning directory 2.....found!

FileNumber	1	Bytes	Date
HF_DRF.zip	P	33159	01-07-16

=====

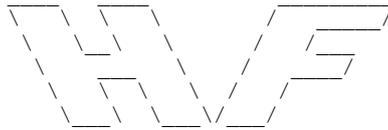

HOKUTO FORCE PRESENTS ANOTHER RELEASE:

DRAGONFIRE +2DGMF

```
FileNumber 2   Bytes   Date
HF_EVILD.ZIP P 46755  01-07-16
```

=====

HOKUTO FORCE PRESENTS ANOTHER RELEASE:

THE EVIL DEAD +3DGMH

Write down FILENAME or press F to flag file for later download.

Example: F 2 to flag HF_EVILD.ZIP

When you have selected all files you wanted, just press D in menu.
And follow instructions. Chose Z Modem, and your files will be downloaded
into your selected Directory on PC/MAC (See you terminal program)

2.4

E = Enter message

If you want to write messages to other users this is possible.

Join correct conference, and press E

```
Enter Msg to (Enter)->ALL Users >: [-----(30)]
```

You can write messages to Specific users.

Example:

fix, the ryk etc...

Or you can write to everyone on the bbs.

You can also make messages "private" if you like.

To Exit/Save Message Editor, just PRESS ENTER TWICE

And you will get the message editors commands.

S = Save
C = Continue
A = Abort

It's quite simple to use it.

2.5

LOOK IN DIRECTORY FOR FILES

F A = Show all files in all directories.
F # = Show files in selected directory
N S U = Show new files since you logged on
F = List Directory

4.0

How to connect to Fastline over TELNET.

PC/WINDOWS:

Download ZOC Terminal (Windows + Mac)

<http://www.emtec.com/zoc/>

Just install it, and then Alt O or open Quick Connection.

ZOC Terminal works nice, but have some minor issues with slower bbses, if you upload Large files. You need to wait until upload is finished, then start the upload again...

Also ZOC is handling Batch upload = uploading many files in one time.

or

MTelnet:

<http://mt32.bbses.info/>

MTelnet is little bit more simple, but this works 100% with all files.

C64:

<https://1200baud.wordpress.com/connecting-to-c-bbss/>

Information for REAL C64 + Emulator:

Fill in Telnet address:

Connect to: FASTLINE.NU

Port: 1541

Connection type: TELNET

Emulation: Ansi BBS

Then press CONNECT
